

# Spring Fashion For Women

By: Heather Kenyon

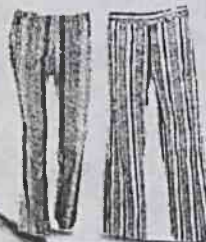

This spring, the new fashion on shirts is stripes. Shirt sleeves this spring are cut short. You will be seeing a lot of the one-shoulder shirts as well. Low cut neck line with ties are the continuing fashion along with number logos.

In jeans, the style is still hipsters and flare jeans, but this spring, we will be seeing pants with stripes and plaid prints of soft and bold colors.

As for shoes, what

can I say, but sandals,

sandals, sandals!
