Wide-brimmed Hat

This summer, leave the baseball caps at home. When packing for a trip to the beach, it's essential to bring your wide brimmed-hat. While you are searching for the perfect hat, remember: the bigger the better! Make sure your hat has the following essentials: long, round, floppy brims, a straw texture and more solid, neutral colors.

These hats provide the perfect shade on a hot summer's day in a fashionable and fun way!

Tote Bags

Straw, prints and neon: OH MY! It seems that prints for this summer are trending toward more simple, structured designs and lines. However, colors are going to the extremes: Anything from neon and bright to soft and subtle colors are sure to be seen on the beach. If you want to go all out, getting a straw, textured bag or one with rope handles is the perfect added touch to any summer beach tote.

This summer, trends are stepping away from the reliable neutral aviators and Ray bands to more retro shapes. The 60's are making a come back with an array of sunglasses in strange shapes and bold colors. Expect to see cat-eye, round and gradient lenses paired with bold, solid colors or, if you dare, contrasting neon.

These cool sunglasses will add a flashy and fun tone to any beach outfit.
