ernment Association. As student government was still in its infancy her place was hard to fill, but being a natural leader and filled with enthusiasm for this work her aim was accomplished and the solid foundation on which Student Government is now placed is due to her untiring efforts. It has been said by those who are leaders of this work in other places that she was truly as able a president as had come under their observation.

When during her Senior year the Professor of Biology was called to military service she took entire charge of the department. The classes in Biology as well as the laboratory and field work were conducted by her to the entire satisfaction of the college authorities and her pupils.

In her life the spiritual element was not lacking. While a student at Guilford she became a member of the Friends church.

After her graduation she did not go home but spent the summer among the mountains at Blue Ridge. At the beginning of September she said good bye to all the acquaintances of her college life and to all the habits and surroundings with which she was familiar and started West to Colorado where she had received a position as teacher. here at Leadville after having spent only two novel and interest filled months that Spanish influenza and pneumonia claimed her as a victim after only a short illness.

Gertrude was a true friend. In her there was no deceit or falseness, but a frank and upright disposition. She was a modest, reserved, and dreamy sort of person and a strong believer in the fundamental things of life. She would unhesitatingly disregard the opinion of others if it was not based on goodness and wisdom.

Her friends feel her loss deeply. Gertrude was one of the most ambitious and strongest girls ever sent out from Guilford, so filled with high ideals. Gertrude has left us, but her memory will ever be held dear to all who knew her.
