

Beacons of the sky

Between Cleveland and Rock Springs, Wyo., along the night route of the air mail service, tall beacons have been placed every twenty-five miles.

This achievement has been made possible by engineers of the Illuminating Engineering Laboratories of the General Electric Company, working with officials of the Post Office Department. A startling achievement now will be a commonplace of life in the new America which you will inherit.

If you are interested to learn more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

Revolving on great steel towers, General Electric searchlights, totaling 1,992,000,000 candle-power, blaze a path of light for the airplane pilot.

What the lighthouse is to the ocean navigator, these beacons are to the conquerors of the air.

FOOTBALL PREPARATIONS

(Continued from page 1)
High Point, "Red" Hughes of Greensboro, Boyd Isley of Friendship, Warren Taylor of Spring Hope, Carey Reese of Friendship, Chas. Weir of Pennsylvania, Walter Robertson of Mt. Airy, Chas. Keen of Wilmington, Del., Pat Stuart of Guilford College, Howard Pearson of Goldsboro, Ira Newlin of Saxapahaw, and Wallace Griffin of Edenton.

Murray White is the outstanding player of the new men. His method of sneaking through the line with the oval has found favor in the eyes of Coach Doak. He is a man of varsity calibre and will probably hold the position of full back. White comes to Guilford from Bailey Military Institute of South Carolina, where he has had three years experience in football.

Captain "Block" Smith is optimistic over the outcome of his team's clash with the Trinity "Blue Devils" on October 4.

SIX ADDED TO FACULTY

(Continued from page 1)
for one year at Earlham College and for one year at Mt. Morris College, one year at Davenport College. During the past two years Mrs. Kohloss has conducted private classes in Salisbury.

Algia I. Newlin '21 heads the History department. Prof. Newlin received his Master's degree from Haverford College and has done advanced work at Columbia and at California University. During the past year Mr. Newlin taught History at Pacific College, Oregon.

WORKING FOR DOCTORATE

(Continued from page 1)
ford last year is now at the University of West Virginia, Morgantown, W. Va., in the capacity of associate professor of English.

Mr. and Mrs. Dann who withdrew from Guilford faculty at the close of last school year spent the summer traveling abroad accompanied by Mrs. Dann's parents. Upon their return to the States they will reside at Salem, Oregon, where Mr. Dann will be associated in business with Mrs. Dann's father. While at Guilford, Mr. Dann was head of the department of Religious Education and Mrs. Dann was assistant in piano.

The rich man doesn't know how much happiness there is in a five-dollar bill unless he once worked for \$15 a week.

Say it with words—if you can.

THINGS THAT INTEREST ME

In 1922 citizens of the United States sent abroad 214,484,621 letters, at a total postage cost of \$6,433,000. Half a century ago it would have cost \$107,000,000 to send the same number of letters.

In 1857 postage on an ounce letter to Australia was \$2.04. Even under the international mail exchange between the United States and England an ounce letter cost 43 cents to mail at that time. Letters to France were 60 cents an ounce.

Modern methods and volume business account for the difference.

I never cease to marvel at the postal system of the world. It seems uncanny that for two cents I can have a letter carried from the building in which I work to the desk of a friend in London, England.—Ex.

NOTICE

The Guilfordian is written for you. You will not receive a copy unless you are on the regular mailing list. Subscription price is only \$1.50. If you have not already done so, clip the coupon below and mail with check for \$1.50 to Miss Ethel Watkins, Circulation Mgr., Guilford College, N. C.

SUBSCRIPTION BLANK

Please enter my subscription for to The Guilfordian the the school year, for which I enclose \$1.50.

Working Your Way Made Feasible

Writing life insurance has enabled many a man to pay his way through college. It is a social service.

To induce your fellows to form habits of thrift—to obligate them to put by a little of their income—to safeguard them against future loss of earning power—is a form of effort that brings keen satisfaction as well as profit.

These are only a few of the reason why the insurance business today is attracting the very best brains of America.

Write for full particulars of a plan whereby you can assist yourself through college, and, at the same time, prepare for a profitable and satisfactory career.
