GUILFORD TAKES DEFEAT FROM LENOIR-RHYNE IN LAST SATURDAY'S GAME

CAPTAIN SMITH, HARRELL AND WARRICK STAR FOR GUILFORD; SPURLOCK AND BEAM LENOIR STARS

FOUR TOUCHDOWNS SCORED IN LAST FEW MINUTES GUILFORD MAKES BIG GAINS BY EXPERT PASSING

Before a crowd of six hundred fans which included an eager student body, Guilford's football team went down in defeat before the Lenoir-Rhyne aggregation on Hobbs' field last Saturday. It was evident from the first of the game that Lenoir had a much more powerful team but with launching everything they had they could do nothing until near the end of the first half. A threatening moment did not come until the last few seconds of the second quarter when Lenoir launched a series of off tackle plays and pushed the ball across the line for a touchdown.

TOO MUCH BEAM AND SPURLOCK
With the Mountain Lions' right tackle, Beam, out of the way, or with their fullback ace, Spurlock disposed of, they were a most efficient combination almost playing the game themselves. Spurlock had a most uncanny ability for covering territory. With a broken field he was a dangerous liability for an opposing team.

GUILFORD'S CHANCE
Guilford had a splendid chance to score when on Lenoir's 20-yard line but lost by a costly fumble. After this the chance of scoring was never so good. Later after good gains the home team was held for downs and were unable to advance. Near the close of the game the Quakers renewed their aerial attacks by which they had made most of their ground. Shorty Frazier sent a splendid pass across to Kimrey twice in succession and made them good but did not have time to follow up the gains before the close of the game.

GUILFORD FAILS TO TACKLE
It was Guilford's day off for tackling. The score would have been smaller for Lenoir had Guilford's back field done more systematic tackling. The line held splendidly throughout the game.

SMITH, HARRELL AND WARRICK STAR

The honors of the day for the Guilford players went to "Block" Smith who held his sector of the line like the boasted "stone wall" of Trinity. When he and Harrell ploughed into the "Mountain Lions'" line it was up to the back field to stop White who carried the ball. Warrick at center generally made his presence known when the ball was in motion. In the third quarter when Spurlock was carrying the ball through a broken field Warrick tackled him, and delayed the onrush. One of the touchdowns was made from Guilford's six-yard line only after three vicious drives.

Lineup and Summary:

Guilford	Position	Lenoir-R.
Smith	r.e.	Seshler
Pate	l.e.	Brown
Hall	r.t.	Beam
Herring	l.t.	Pasour
Neese	l.g.	Royster
Harrell	r.g.	Caldwell
Warrick	c	Rudisill
Frazier	q.b.	Phillips
White	f.b.	Spurlock
McBane	h.b.	Gresham
Casey	h.b.	Conrad

FAST HIGH POINT ELEVEN DEFEATS DOAK'S SCRUBS

ROBERTSON AND REYNOLDS ARE STARS FOR GUILFORD; FORWARD PASSES EFFECTIVE

Coach Doak's reserves journeyed over to High Point Friday evening and were defeated by the strong High Point High School eleven by the score of 16 to 0, in initial scrub game of the year. The team that Coach Doak sent over was made up mostly of new men and men without much football experience, due to the fact that he kept many of the second team out of the game so as to be in readiness for the Lenoir game the following day. Considering the fact that the best of the reserves were out of the game the scrubs made a very good showing, for Coach Boylin has a strong eleven and will have a chance to win the state championship.

For Guilford, Robertson played a brilliant game; he was clearly the outstanding ground gainer and his punting was effective. Reynolds at quarter also showed good generalship and made long gains. He passed with accuracy which resulted in several first downs by the aerial route, Reynolds via Taylor. In the line Hammond and Russell played a strong defensive game.

The scoring came in the first and second quarters when High Point pulled a trick forward pass for a touchdown. The second score was made by line plunges. One field goal was made. In the first quarter Garnander hid himself from view off right end while team planned signals. Gleason passed the ball to Gernander, who carried it over for the first touchdown. Before the quarter was over the ball was worked down the field into Guilford's territory and Gleason kicked a field goal for three points. In the second quarter Tory Gernander the flashy fullback for the Pointers broke up a forward pass and dashed 50 yards, placing the pigskin on the eighty-yard line. The ball was carried over on the next play, but the try for extra point was missed. After this play and during the two last

MR. HAWORTH TALKS ON EUROPE AT CHAPEL

Rev. Samuel Haworth in leading chapel Monday morning discussed some of his experiences in Europe. He characterized the Atlantic as "a gulf that separates two worlds." The speaker described the physical characteristics of Europe as very different from those of America, contrasting the sunny skies of America with the fog-laden, rainy British Isles.

Mr. Haworth described European customs and ideas thus: "There is the projection of the past into the present that we do not have in America. Some evidences of the past continuing into the present is the cathedrals and museums. The British museum is the greatest collection in the world. There is a sense of underlying community between England and America, and between the past and present.

Mr. Haworth then characterized the movements of civilization as cyclic. "There is a community of interest," said he, "among peoples. I want to lay this challenge before you that the world today needs the realization of the big neighborhood idea. Let each put his life into this big plan. One's life is given him for service to humanity."

Elton Warrick, (l) center, and Jack Harrell, (r) right guard, of the Quaker line. Warrick who hails from Goldsboro has been "chunking" the oval to the back field for three seasons and is still going strong. Warrick is a hard fighter and a good sport, and is a favorite among the Guilford fans. Harrell is also from the Sand Hills of eastern Carolina. His ability to plunge the line makes him a valuable asset to the Quaker eleven. When everybody else is "down in the mouth," "Lem" can be heard the most.

MISS LOUISE OSBORNE UNDERGOES OPERATION

Miss Louise Osborne, dean of women, was taken to Long's Hospital in Greensboro on Wednesday the 8th, to undergo an operation for appendicitis. The latest reports (Sunday night) say that Miss Osborne is recovering as rapidly as possible, considering the seriousness of the case.

It was known from the first that Miss Osborne was threatened with appendicitis, but in the hope that an immediate operation would not be necessary, the doctors advised a delay in operation in order that she might gain strength for an operation later. On Monday, the 5th, recovery seemed certain, and she herself was very optimistic concerning her recovery without an operation. On Tuesday night, however, her condition became so serious that on Wednesday an immediate operation was strongly advised. She was rushed to Long's Hospital in Greensboro, and operated upon early Wednesday morning.

From the latest reports concerning her condition, (Sunday night) it is learned that she is gaining in strength and that she is slowly coming out of danger.

E. P. BROWN '26 ELECTED NEW MANAGING EDITOR

N. C., was elected managing editor Edwin P. Brown '26 of George, of the Guilfordian to succeed Edward M. Holder, who resigned from this post at the beginning of the present scholastic year. Mr. Brown has served as reporter from the Henry Clay literary society for one semester and his work has been so creditable that he was unanimously elected to this position. He takes office at once.

Mr. Holder, who was a most energetic and successful managing-editor during last Spring's semester, was forced to resign the post on account of duties connected with the instructorship in the piano department of the college. B. Russell Branson '25 of Goldsboro, N. C., was elected by the Henry Clay literary society to fill the vacance created by Mr. Brown's promotion to the managing-editor's position.

The new elections for the year on the Guilfordian staff are: Pro-

S. M. KEENY PLEADS FOR STUDENT UNDERSTANDING

PLEADS FOR RUSSIA'S EDUCATIONAL CAUSE—ADVOCATES MORE INTERNATIONAL SYMPATHY

Spurgeon M. Keeny, director of the American division of the World's Student Friendship Fund, addressed the student body at Guilford College during the chapel period on Thursday.

Mr. Keeny pleaded for a better understanding of the nations. He declared that mutual helpfulness is the best ground for effective world peace. "The students of the world are under especial obligation to stand together," he said. "At the present time the greatest need is among the Russians. Russia is a country little understood. Her students are making untold sacrifices for an education which will fit them for the reconstruction of the devastated country. They are in extreme need of outside assistance."

Mr. Keeny has spent the last eight years in Europe, four years of which he spent in study and the remainder of the time in relief work. This work consisted in giving to aid the university students and professors in Russia who were in actual want for food and clothing. He reports conditions as being greatly improved over three or four years ago. The spotted typhus which followed the years of famine has been pretty well put under control. At present he says that there are something like eight to ten millions of malaria cases, principally in the rural districts. But food and government conditions are more stable now.

The Young Men's and Young Women's Christian Associations are taking up the matter at Guilford with the intention of giving as much aid to the cause as possible. So far there have been 26 student groups in North Carolina who have contributed to the cause.

MUCH INTEREST SHOWN IN WOMEN'S ATHLETICS

With the changing of the system of awards, the work of the women's Athletic association this fall seems to have gained appreciably in enthusiasm.

The institution of another sport, hockey, has greatly increased the enrollment in those interested in games, and has added not a little to the spirit of sportmanship of the association.

Hikers may be daily seen scattered along the highways through dust or rain, as the case may be, during the period of legitimate hiking hours which includes time for a four-mile excursion before breakfast. It is estimated that the total distance hiked thus far is 1,000 miles.

Wielders of the tennis racket are no less diligent plying the balls across the courts than those engaged in the other sports. Preparations are already begun for the preliminary tournament which will begin this week.

On the whole the W.A.A. anticipates a year of good hard work and much achievement.

KENNETH NEESE ELECTED SOPHOMORE PRESIDENT

Kenneth Neese of Swepsonville was elected president of the sophomore class at their first regular meeting last Tuesday evening. Annie Wagoner was elected secretary; Rhoda Maye Holliday, treasurer, and Sidney Winslow, Marshal.

After the election of officers, the remainder of the evening was spent in various games of amusement.

S. L. HAWORTH REACHES GUILFORD AFTER FOURTEEN MONTHS SPENT IN EUROPE

STUDIED EDUCATIONAL AND SOCIAL WORK DONE BY ENGLISH FRIENDS

Samuel L. Haworth, former pastor of the Friends Church of High Point, and who during the past summer was elected to succeed Mr. Robert Dann in the department of Religious Education, reached the college a week ago.

Immediately after resigning his pastorate at High Point, he and Mrs. Haworth sailed for Europe on July 28, 1923, where they remained for fourteen months, arriving in the United States on September 27th, 1924.

Mr. and Mrs. Haworth first went to England and Scotland where much time was spent in visiting Friends Meetings. In speaking of the Friends Meetings in England Mr. Haworth said: "The meetings of Friends in England are as a rule considerably smaller than our meetings in America. They do not make any effort to gather large congregations even where they have a considerable membership. They emphasize more than we do the periods of silence, and general participation is encouraged rather than leaving so much of it to the members.

Mr. Haworth found the Friends in England very active in social service and political matters, having several of their membership in parliament, besides a large number engaged in local and municipal affairs.

Visiting the Friends Schools in England proved a great source of interest and inspiration to Mr. and Mrs. Haworth. At least seven Friends schools were visited by them and all were found to be under able management and re-

(Continued on page 4)

J. F. FESPERMAN MEETS WITH THE Y. M. CABINET

J. F. Fesperman, district secretary for the Y.M.C.A., with headquarters at Charlotte, met with the Y.M.C.A. cabinet on Tuesday night to discuss the problems confronting the college Y.M.C.A. work and to offer practical suggestions for a remedy. The first problem taken up was that of membership. Mr. Fesperman suggested that each member of the cabinet put forth special and individual effort to secure new members and not leave the burden on one committee. Attendance was discussed, and Mr. Fesperman suggested more interesting programs as a possible solution. He also named many outside speakers who could be secured to talk to the students.

TYPHOID VACCINE GIVEN ALL COLLEGE STUDENTS

As a sort of by-product of the typhoid scare which swept over the campus this summer, the college authorities are launching a more strenuous campaign for the prevention of contagious diseases than has ever been carried on in given a physical examination and past years. All students have been are being given treatments of the typhoid vaccine as well as small-pox vaccinations when the latter is necessary. Particular care is being given to testing for weak hearts and diseased lungs. Dr. Bell and Dr. Williams of Greensboro are assisting Dr. Williams of Guilford College and report the Guilford students as a pretty "healthy" bunch.
