

GUILFORD ENDS THE MOST SUCCESSFUL SEASON SINCE YEAR OF 1918 IN BASEBALL

The game with Elon college on Saturday May 22 marked the close of the most successful baseball season since 1918 for Guilford. The team won 11 out of the 19 games, scoring runs to their opponents.

As usual, the team got off to a bad start due to the fact that many of the hardest games on the schedule came at the beginning of the season. The opening series this year was played during the Easter vacation when the Quakers encountered five teams, losing games to Wake Forest, Lenoir Rhyne, and Winston-Salem Twins of the Piedmont League.

After a few days of practice had taken the rough edges off Doak's machine, the Wake Forest team, in a return game was blanked by the pitching of Shirt Smith who allowed them only three hits.

In the Virginia trip the team won three games, tied one, and lost one out of five contests. After conquering Bridgewater, Roanoke College, and Washington and Lee, they tied the strong Georgetown team in a 13 inning fray with the score standing 7-7 when the game was called on account of darkness. The only defeat of the trip was suffered at the hands of the Quantico Marines who got revenge by a large score for their set-back in the opening game of the season with the Quakers when Shirt Smith held them to a 1-0 defeat, the only game the Marines lost in North Carolina.

Hendrickson and Griffin, playing second and third respectively, proved to be two valuable new men on the Quaker varsity infield and must be given credit along with Nee English, Wade Lindley, Rich Ferrell and the renowned Shirt Smith. In the outfield, French Smith and Kendall were more or less steady hitters. The other position was rather unstable; several people holding it down during the season.

The pitching staff was one of the best that Guilford has produced for many seasons. Shirt Smith, the state-wide known southpaw, began the season with his usual stellar showing by beating the Quantico Marines at Greensboro by a shut-out score of 1-0. Poole who hailed from Davidson at the second semester would have won many more games for the Quakers had he been eligible for intra-state college games. Coltrane, through his collectiveness on the diamond, proved to be an excellent relief pitcher as well as good all-round ball player. Rabb, star Lenoir High School righthander showed what he could do in the game between Davidson and Guilford when he conquered the hard-hitting Wildcats 11-2 and allowed them only a few scattered hits.

The Crimson and Gray team will feel the loss of such men as English and French Smith who will graduate this Spring; also Rick Ferrell who goes to the Detroit Tigers. But with the large squad of reserves that crowded some of the veterans for their positions this year, Doak will have a good supply of raw material out of which to build a winning team for 1927.

The following is a composite box score of the entire season. Kendall is leading with a batting average of almost .400, followed closely by Rick Ferrell.

BASEBALL TEAM OF 1926

QUAKERS DROP FINAL GAME TO ELON

(Continued from page 1) five and three in the fourth and fifth respectively. Coltrane was hit hard for the first four innings and was relieved by Rabb, who after allowing four hits and three runs off his delivery in the fifth canto, held the Elonites scoreless for the remainder of the fray. The lucky seventh proved rather inadequate to win the game for the Quakers when they score one run due to an error. In the eighth the Guilford team banged out five hits to score five tallies.

Kendall had his regular good day at bat. Bouch getting three hits out of four trips to the plate and Lindley two out of four.

ELON		ab	r	h	o	a

Hits-off Coltrane 8 in 3 2-3 innings; Rabb 5 in 4 1-3 innings. Bases on balls—off Rabb 1. Sacrifices—Shepherd, C. Crutchfield, Slaughter. Stolen bases—Bryant, Hendrickson. Left on bases—Elon 6, Guilford 3. Umpire, Henderson.

EQUIPMENT FOR LIBRARY DONATED BY SENIOR CLASS

The annual gift to the college from the Senior class was formally presented by Garvice Guthrie, the class president, Monday morning in the library. The gift consisted of three reserve shelves and a magazine rack for the library. Miss Ricks responded to Mr. Guthrie's presentation speech.

The appropriateness of this gift will not be doubted by anyone who has sought for magazines piled threefold on the present rack, and with the many donations received during the past year, the bookshelves will also served a very good purpose.

FOREIGN MISSION WORKERS MAKES VISIT TO GUILFORD FOR STUDENT VOLUNTEERS

Holds An Open Forum On Campus—Discusses The Race Question

In a chapel talk, May 21, Mr. Long said, "Foreign Missions thrill me more than any new adventure. It challenges the intellect and interest. It is a new adventure with our lives in service. It is giving ourselves to the task of peace and goodwill." He continued by saying that the ministry and foreign missions were considered to be the most sacred occupations, but others are just as sacred. And life calling is sacred because of what is put into it. Foreign missions is not the most wonderful—just one of many.

"Why are you really interested in missions? Why, not law?" someone asked Mr. Long. Many college students of today say, "I'm going where the money is." However, the speaker answered the question by saying, "I believe the unit of success is service to humanity." Another question one often hears is, "Why leave un-Christian America for service in other lands?" Mr. Long answers this question by saying, "It is because the people of other lands need my services more. Here are some of the facts to show why I believe as I do. There are more ministers in Iowa than in Latin-America, and only 15% of the people of Egypt read and write."

Doctors and nurses find it hard to choose between the open fields of China and the rich United States. More people die in Africa from preventable disease than were killed in the first year of the World War. There is some thing in Christ's way of life that will ease this and finally erase these conditions.

On May 21 Mr. Long, chose for his chapel talk, "A Look at Non-Christian America."

"There are many challenges to Christianity," explained Mr. Long. "An outstanding challenge is seen by a look into our own non-Christian civilization. Some people say that our nation is the most militaristic and imperialistic of the world."

He then pointed out the difference between the commonly accepted Christianity and the teachings of Jesus. This was followed by the application of the principles of Christianity to war and race relationship.

Mr. Loy Long met with a group of students on the campus from 6:30 to 7:00 Friday evening to discuss some of the problems that we are facing today, laying special emphasis on the "Race Problem."

"Do not get the idea," says Mr. Long, "That we as white people can manage our business alone and let the others do the same, so closely is the world knit together."

He asked the group a question, "Can we be Christian with the negro today?" Many of the students followed with discussions along this line, pointing out how we may be Christian with the negro, giving them more advantages.

My Desire

To keep through all the commonplace
 A vision of the ideal;
 To keep through all the waking hours
 Dreams that may not be real;
 To keep through all the love that fades
 One love unstained and pure;
 To travel down the lonesome road
 And know my way is sure;
 To keep a tenderness in my heart
 For flower, or beast or man;
 To lift, to love, to laugh, to help,
 To do what good I can—

Then my desire shall be fulfilled,
 When I reach the western rim,
 And I shall travel hopefully on,
 Down the sunset trail to Him.
 —G. H.

BROWN AND McCOLLUM WIN SENIOR SCHOLARSHIPS

(Continued from page 1) Mawr Scholarship awarded to Miss McCollum is valued at \$400.

Mr. Brown has not only made the highest average grade in the senior class but has also been engaged in heavy outside activities. Starting as a reporter on the Guilfordian board he advanced to the office of Managing Editor and then to Editor-in-Chief. Last year he successfully managed the Guilford College Glee Club and this year he was President of that organization.

Miss McCollum has also made a splendid scholastic record and is very popular on the college campus. Her splendid dork in mathematics and her knowledge of this subject deserves special mention. She expects to pursue this course at Bryn Mawr College next year.

SOPHOMORES WIN ANNUAL FORENSIC WITH FRESHMEN

In the Annual Freshmen-Sophomore debate, held in Memorial Hall, May 24, the Sophomore team, Wilmer Steele and Paul Swanson, defeated the Freshmen team, Scott Parker and Edwin Rozell by a 2-1 decision. The question debated was: "Resolved: that the Japanese Exclusion Act should be repealed." The Sophomores represented the affirmative and the Freshmen the negative side of the query.

The affirmative argued that the exclusion act is inexpedient and unfair; that the Japanese are an economic asset to the United States, and that the exclusion act has hindered the spread of Christianity in Japan. The negative brought forward the points that, to repeal the act would be disastrous to the American people; the act is right in principle, and that the Exclusion Act is the only way to keep the Japanese out.

Both sides showed much enthusiasm and at times debate became exceedingly humorous to the audience.

Byron Haworth acted as chairman and the judges were Miss Eva Campbell, Mr. Samuel Haworth, and Mr. George Wilson.

A Man is old as soon as he stops learning.

Be natural so we'll all feel more at home.

Like people, when money isn't working it gets shiftless, and acquires bad habits.

GUILFORD'S GLEE CLUB FINISHES FOURTH YEAR OF ITS MUSICAL WORK

Club Composed largely of New Men Without Chorus Experience

The Guilford College Glee Club has passed its fourth year of organization. This was a very successful season despite the fact that its beginning was most discouraging. Losing a number of soloists last spring made it very difficult for the program committee to arrange a program that would equal those of previous years.

The total number of concerts which the club gave this year was fourteen. Besides the home concert and those in neighboring towns, the club made an eastern tour, visiting six towns during the week. It was received best in Roanoke Rapids, Hertford and at home. At every place a hearty invitation was extended to the club to come back next year.

The Glee Club was greatly strengthened in having as its director Mr. Grady Miller, of Greensboro. Mr. Miller has made special study of chorus work and it was owing to his ability and efforts that the club was able to make the season successful. He is planning to make further study in men's chorus work at Columbia university this summer, and it is believed that he will have many new ideas for the program next fall. Sam Keen, who was student director this year, will also be back next year to assume his old position.

The gleemen hope to give a full performance in addition to the regular spring season appearances.

Instead of making a tour of the eastern part of the state next season, as has been the custom for the past two years, the management hopes to schedule a trip through the western section of North Carolina.

GLEE CLUB OFFICERS FOR SEASON OF 1927 ELECTED

The Glee Club officers for next year have been elected, as follows: Sidney Winslow, President; Byron Haworth, Vice-President; Howard Trivette, Secretary and Treasurer; and Paul Reynolds, Librarian. Joseph Cox was re-elected business manager. Samuel Keen, who has for the past season been student director, was re-elected to this position, and with Grady Miller will supervise the chorus work of the organization during the coming year.

Zatasian Society

May 21.—The Zatasian Literary Society bade farewell to its Senior members by showing them the Society Memory Book for 1926. This book consisted of the profiles of all the senior ladies. Ella Mae Friddle very ably exhibited the book while underclassmen told the history of each portrait as it was shown. There were pictures in the book of Beulah Allen, Hazel Coltrane, Pansy Donnell, Jewell Edwards, Geneva Highfill, Ruth Harding Linn, Ina Mixon, Ruth McCullum, Ola Mae Nicholson, Catherine Shields, Margaret Townsend, and Mildred Townsend. We wish these ladies the best of luck.

May 28.—There was a call meeting of the Zatasian Literary society Friday night, at which the treasurer gave her report and the new officers who are to serve for the first term next year were installed. They were: President, Mae Hollady; Secretary, Doris Joyner; and Marshall, Thelma Pfaff.

Mildred Townsend, acting as chairman of the committee, which was appointed last fall, to watch the improvement of the freshmen and sophomores of the Zatasian Society, presented the improvement prize. "Cabbages and Kings" by O. Henry, to Ella Mae Friddle, for having shown the greatest improvement in the society for this year.

Oh what is so rare as a full day's work in June!

The world feels friendly toward the man who admits he likes onions.
