

SOCIETY NOTES

WEB NOTES

President Wilmer Steele
 Vice-President Olin Sink
 Secretary Herman White
 Marshal Joseph P. Cude, Jr.

Jan. 13.—“Resolved: That the United States should immediately withdraw the marines from Nicaragua” was the topic for discussion in the Websterian Literary Society last Friday night.

Olin Sink and Paul Tew ably presented the affirmative side of the question by proving that the entire scheme is the result of an imperialistic policy as now practiced by the United States. However, Calvin Wray and Robert Atkinson secured the judges' decision by pointing out that the marines' sole duty in Nicaragua is the protection of American lives and property.

Joseph Westmoreland, in a humorous way that drew much laughter from the society members, set forth some campus jokes relating to local personages.

CLAY NOTES

President Worth Mackie
 Secretary Barclay Newlin
 Treasurer Everett Beamon
 Sergeant-at-Arms Howard Taylor

Jan. 13.—The topic for debate in the Henry Clay Literary Society Friday

night was one phase of the intercollegiate query, “Resolved that the United States should withdraw the marines from Nicaragua.” The issue is a live one and it was hotly contested throughout. Weldon Reece and Allen Stafford contended for the affirmative that the presence of the marines is earning for us the dislike and distrust of the Latin-American republics and that keeping them there is contrary to the principles of American government. Clare Trueblood and Ervin Lemons won the judges' decision for the negative by proving that the marines are necessary to keep peace and protect American life and property.

A second number entitled “Campus News,” by Richard Wharton, was so humorous and witty that it kept the society members in constant laughter till Mr. Wharton sat down.

PHIL NOTES

President Annie Wagoner
 Secretary Pauline Chaffin
 Treasurer Nell Thomas
 Marshal Pauline McBane

Jan. 13.—The theme of the Phil program for last Friday night was a trip around the world. The first glimpse of foreign soil was portrayed by the sight of a little French peasant girl

(Nell Thomas) and her rendition of a few verses of poetry. In the course of the journey Ireland entertained us with a native folk dance by Pauline McBane. Spain was quite characteristically represented by a scene between a Spanish senorita (Espie Neece) and her ardent lover (Thelma King). Jo Paul, Effie Stevens, Annie Lee Bond, and Ethel Chadwick were Japanese girls who gave us a song and dance. America then majestically held the stage in the person of Mary Reynolds, patriotic in the proper colors.

ZAY NOTES

President Ruth Lane
 Vice President Sara Jinnette
 Secretary Bernice Henley
 Treasurer Myray Gamble
 Marshal Nina Bouldin

Jan. 13.—The Zatasian Literary Society program, Friday evening, took the form of a musical entertainment. The program consisted of the following numbers:

- Piano solo: A Song of India, Korsakoo—Frances Osborne.
- Piano solo: Sounds from the Ringing Rocks, B. Frank Walters—Esther Reece.
- Piano Solo: Hawaiian Dreams—Elizabeth White.
- Vocal solo: My Maryland, Romberg—Kathryn Owen.
- Piano solo: Viennese Carnival Pranks, Schumann—Catherine Cox.
- Piano solo: Military Dance, Marshall—Virginia Saunders.

Each selection was filled with much color and expression. The entire program was well given and well received.

America Discovered for \$7200

Old records show that the cost of Columbus' first expedition to America amounted, in modern exchange, to only \$7200. To finance Columbus, Isabella, Queen of Spain, offered to pawn her jewels. Today word comes from Spain indicating that a twentieth century importation from the new world is fast effecting a sufficient saving to ransom many royal jewels. The Spanish Northern Railway reports that the American equipment with which in 1924 the railroad electrified a mountainous section of its lines from Ujo to Pajares has accomplished the following economies:

1. A 55% saving in the cost of power.
2. A reduction of 40% in the number of engine miles for the same traffic handled.
3. A saving of 73½% in the cost of repairs and upkeep for locomotives.
4. A saving of 63% in crew expenses.
5. A reduction of 31% in the cost of moving a ton-kilometer of freight.

In every part of the world, electricity has replaced less efficient methods and is saving sums far greater than the ransom of a queen's jewels. You will always find it an important advantage in your work and in your home.

The substations, overhead equipment for the complete installation, and six of the twelve locomotives for this particularly difficult and successful electrification were furnished by the General Electric Company. General Electric quality has attained universal recognition; the world over, you will find the G-E monogram on apparatus that is giving outstanding service.
