FROM THE SOCIAL COMMITTEE

(Continued from Page Two)
they believed another, so we cannot accept as conclusive this proof.

The faculty and student body are invited to a college social to be held November 17, 1934. Everyone is requested to be present. Games will be provided for those not dancing. Several new and reasonable features suggested by the students and faculty will be tried.

We realize the student body will go their half, and we are willing to go our half in so far as it does not involve unreasonable requests which tend to reflect more upon an intelligent student body than upon the social committee. The students are not children; that stage is passed. It is as men and women that the student body views present problems.
