

CORRELATION MADE BETWEEN GRADES AND INTELLIGENCE

Committee Made a Report of the Work to Dr. Milner.

FACULTY IS EFFICIENT

Correlations Found Show a Great Deal of Relationship Between Grades and Intelligence.

A committee from the class in educational tests and measurements composed of Charles Carroll, Mildred Marlette, Elizabeth Moorefield and Margaret Barnes reported to Dr. C. A. Milner the work done by the class last semester. They have found out some interesting facts about the student body and about the efficiency of the faculty. The class tried for a project to discover the degree of relationship between grades and intelligence. They used the intelligence tests scores and the grades of the freshman class entering in 1930. They found the following relationships or co-efficients of correlation between intelligence scores and English grades .59, between intelligence scores and math .509, between intelligence scores and science .53, between intelligence scores and foreign language .44. These correlations show that there is a great deal of relationship between intelligence and grades.

In order to discover the efficiency of the faculty, the correlations found by the class were compared with those found by experts in this field. The results compared very favorably. The results from the class of '30 at Guilford show a .59 against a .45 for intelligence and English correlation, a .509 against a .35 for math and intelligence, and a .53 against a .31 for intelligence and science.

These results show that the Guilford College faculty is very efficient.

Prof. F. C. Shepard plans to let his future classes in tests and measurements do further research work in this field.

Work of a similar nature has been done by the classes preceding this one. Prof. Shepard has the results of this work on file in his office.

The class also made histograms showing the intelligence curves of the classes of '30, '31, '32, '33, and '34.

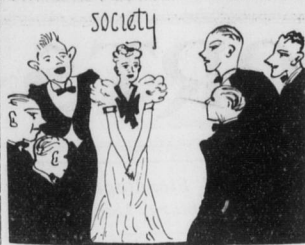

To those who know the various kinds of tests it would be of interest to know that the work was based on the Terman group tests, forms A and B.

FACULTY DEPRADATOR MURDERS TWO CHICKENS

The Guilfordian is going into the census business. We are going to take a census of chickens on farms between Guilford and Greensboro. This is because our special faculty depradator is loose again, or rather has his licenses back.

But this is a news article: At 4 o'clock Friday afternoon, February 22, on the Muir's Chapel road, two chickens were done to death by a hit-and-run driver. Bystanders report that the driver used his horn but not his brakes. The Guilfordian regrets heartily this recent upturn of crime in our community.

Lillian Hassell and Millie Glisson spent last week-end in the former's home at Jamestown.

Other students leaving campus for the week-end included Mamie Rose McGinnis, Salisbury; Miltred Hockett, Greensboro; Erline Hunter, Westfield; Willie Lou McGee, Pilot Mountain; Mary Maness, Virginia Sprinkle, and La Velle Wilson, High Point; Ruth Newlin, Saxapahaw; Bill Price, Price; and Robert Poole, Stoneville.

Bob Blair, of Trinity, visited his brother, Charles, during the week-end.

Fair Swaim had as his guest Sunday his brother, Ray Swaim, and Allen Parker and Grady Spainhour, of Winston-Salem.

Mrs. Leota Beebe and Mr. and Mrs. H. E. Beebe, mother and brother of Mrs. Elwood Perisho, from Ipswick, S. D., visited in the Perisho home last week. After spending several days here, Mr. and Mrs. Beebe went on to Florida, but Mrs. Leota Beebe will remain with her daughter until April.

Now, says a columnist at the University of Oklahoma (Norman), is apparent the meaning of the phrase, "Dear, you'll be the death of me!" The columnist points to the discovery by psychologists at Western State College (Gunnison, Calif.) that a kiss, by causing extra palpitations of the heart, shortens the average human life by three minutes.

Columbia University's reporter, questioning people in the street, found that five out of six think that college students are loafers. The sixth spoke only Chinese.—The Pioneer.

A fine of \$10, or a jail sentence of six days, is the sentence imposed upon a co-ed if caught wearing a fraternity pin at the University of Minnesota.

Speaking of professors, what is going to happen when professors become so absent-minded that they go into the wrong classes?—The Duke Chronicle.
