### A. C. P. Gives Guilfordian First Class Honor Rating

The GUILFORDIAN ranks among other college newspapers its size as a first class publication, according to the rating received yesterday from the Associated Collegiate press.

The Press criticizes college newspapers and rates them in groups according to the size of the newspaper and of the school.

The GUILFORDIAN received 730 points, or a rating of excellent. This is 20 points less than is required to make All-American, or a rating of superior.

The Associated Collegiate press sends the newspaper a criticism along with the rating. It said that announced speeches should be followed by a report of the speech, and that human

interest stories on speakers coming to the campus might be good feature possibilities.

The news writers have not mastered the technique of writing a good lead to the stories—there should be more information in the first paragraph of the story.

The paper is mechanically attractive, that is, in the type of print used for the various stories and heads, and the make-up of the front page shows wise and careful planning. However, the paper lacks variety in this field.

Sports page coverage is excellent, but is not exploited enough—there should be more flash to the make-up.
