EVENTS OF THE DAY

Tomorrow, Saturday, October 16, is Homecoming. For the benefit of all the alumni and friends of the college who have not had an opportunity to inspect the new Katharine Hine Shore Hall, the dormitory will be open for visitors from 12:00 noon until 2:00 in the afternoon.

At 1:30 registration of guests begins. This year registration will be near the ticket booth at Hobbs Field.

At 2:00 the parade featuring the floats of every dormitory and section will begin. The floats will leave from the back of their dormitory or section, follow the road to Hobbs Field, and circle around the field.

Kickoff time for the Guilford-Lenoir Rhyne football game is 2:30.

During the half-time, Sue Genz, Homecoming Queen last year, will crown Thelma Buckner, the newly elected Queen. The other members of the Homecoming Court are: Peggy Jones, Betsy Marklin, Lila Tice, and Dot Pleasant.

The floats will again parade around the field, and the judges will decide and announce the winning float and the dormitory with the best decorations.

At 5:00 there will be a barbecue supper on west campus. Alumni and guests of the college are invited to the barbecue. There will be a slight charge for alumni and guests.

The Women's Athletic Association is sponsoring the Homecoming Dance this year at 8:30. The dance will be free. Formal dress is optional.

SCA PLANS

The Student Christian Association cabinet worked out plans for the coming year at their retreat on October 9th.

They have decided to take the responsibility for one chapel program each month and to have some sort of a program every Sunday night at 7:30. These latter programs will be either vespers or religious services.

In addition to these regular activities, the SCA will sponsor a square dance October 23, with professional assistance; an initiation service for new members the following day, and the annual Religious Emphasis Week which, will this year be held February 7-12. Other activities will be announced from time to time.

Through his brother, who is living in the States, he obtained information about educational institutions in America, and more specifically about Guilford College.

At Guilford "Su" has continued in his engineering interests by taking advanced science courses (Physics 31, Chemistry 21 and 23, and Calculus 41). Though his fu-
