

## Literary Society Is Accepted For SAB Membership

On September 25th, the Student Affairs Board unanimously accepted a new organization on campus. Every regularly enrolled student of Guilford College is a member of this organization, The Guilford Literary Society. A student activates his membership by merely attending monthly meetings.

All major fields will be represented in the organization, and programs for each will be scheduled. At these meetings prominent leaders from all walks of life, ranging from music to athletics, will discuss the problems which arise in their work and which will face the college graduates.

Another function of the society will be to organize debating teams on campus for the stimulation of inter-collegiate debating. It is noteworthy that in the history of Guilford several debating teams from numerous campus societies have functioned. It is hoped that this tradition of intellectual discussion of controversial issues will be rekindled.

Each semester the combined campus activities of the society will be culminated in the "The Tad." The council of the G.L.S. will serve as the editorial board for the magazine. Awards will be presented for outstanding contributions from all fields.

The program of the Guilford Literary Society is constructed so as to reach each and every student of Guilford College. Everyone may take advantage of the many opportunities which are offered by this new organization.
