Frazier Makes Charges

Robert H. Frazier, former chairman of the Guilford College Board of Trustees, has charged that "changes in the purposes of Guilford College ... are now being undertaken." Frazier made the charge in a February 13 letter to THE GUILFORDIAN.

Frazier also charged that "taking non - Quakers on the Board of Trustees would break the contractual provision... which was inserted in the charter by act of the North Carolina General Assembly when Guilford became a college."
In addition Frazier pointed out

that in accepting Federal funds used in the renovation of Duke Memorial Hall the college had forfeited the right to hold religious services in the hall.

Frazier's letter was reportedly prompted by an article in the February 9, 1970 issue of THE GUILFORDIAN which reported that Frazier was boycotting trustee board meetings and asking prominent Greensboro residents to not contribute to the college's

fund raising drive.

The article cited the policies of Guilford's present administrators, the decision of the college to accept federal funds, and the decision of the Board to enlarge the Board of Trustees to include non-Quakers as the primary reasons for Engine's insettiity.

Frazier's inactivity.

After Frazier assumed an inactive role, his duties were assumed by vice-chairman Edwin Brown of Murfreesboro. Brown was elected permanent chairman at the October quarterly trustee

meeting.

Last spring Frazier drew widespread criticism from students and faculty members after THE GUILFORDIAN publicized his defense of slumlord W. W. Horton.

Frazier, a Greensboro lawyer and former mayor, was first e-lected chairman of Guilford's Board of Trustees in 1950.

The text of Frazier's letter THE GUILFORDIAN is published on page 2.

Student Dismissed; Falsified Records

A male student was found guilty of falsifying college records by the Judicial Board of the Student Affairs Committee last Monday, February 16.

The defendant was dismissed from the college after the board considered his history of Honor Board violations and the serious-ness of this particular charge.

The student had not informed college officials that he had played football for Arkansas

State in the fall of 1964.
Article VIII, Section 6, of the
Carolinas Conference Constitution requires all participation

in college football to be within a five year period. According to this rule, the student was ineligible to play football during the 1969 football season.

An official of an Eastern col-
