Summer Employment

Summer job analyses indicate that the prospects for college student employment for the summer of 1977 look promising. National parks throughout the nation will once again staff their facilities with college student summer-time help. Opportunities appear to be expanding into many support accommodations and facilities surrounding the park areas. State parks also indicate a high demand for temporary summer employment by college students. Some national parks will hire as many as 3,000 college students for the summer period.

Several hundred private camps throughout the nation will once again be seeking college student

Outlook Good :

summer employees in varied capacities as counselors, swimming instructors, music directors, and general activities such as maintenance, cooking, etc. Students with special talents in the area of entertainment or horse handling abilities should investigate these opportunities.

Once again it is emphasized that students desiring summer employment in the various recreational areas throughout the nation should apply early. Students interested in obtaining additional detailed information may request a free brochure by sending a self-addressed stamped envelope to Opportunity Research, Dept.
