New York Artist wall-paints with Guilford students

New York artist Mary Beth Edelson has been on campus this week, creating a wall painting in collaboration with Guilford students.

The work is located on the entrance halls of the Center for Personal Growth in the basement of Founders, and is expected to be finished Friday.

Edelson, once best known for her feminist ritual performances, is now widely recognized for her large-scale works, which reflect challenges and hope for cultural development.

Extinguisher haze leads to Milner false alarm

Dry chemicals from an unnecessarily triggered fire extinguisher led to a false alarm in Milner Hall on Sept. 20 at about 4:00 am.

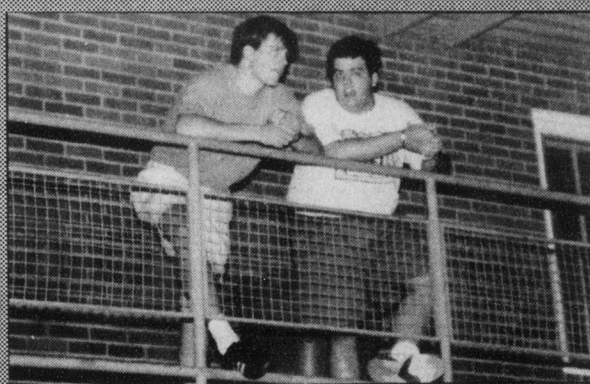

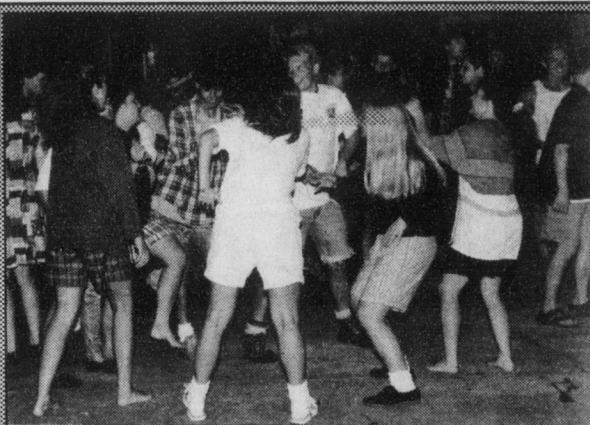

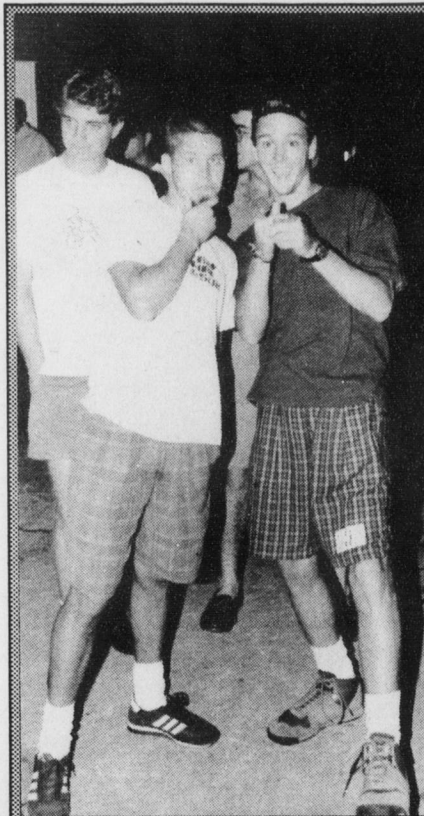

Apparently, pranksters purposely set off the fire extinguisher, which is kept in a broken wall cabinet on 3rd South.

The haze appeared to be smoke, which obscured the situation and delayed the fire fighters' inspection. Milner residents waited outside for an hour and a half, according to Hall Council President Paul Mosca.

Hobbs family honored for mill restoration

Lois Ann Hobbs and the late Ex-Guilford College president Grimsley Hobbs will receive a Gertrude S. Carraway award of merit from Preservation North Carolina this week.

The award recognizes the couple's restoration of the Baldwin's Mill near Pittsboro. Hobbs' love for mills culminated in his 1986 publication, "Exploring the Old Mills of North Carolina."

Friday, October 2
am 11:30 Brown bag lunch discussion, "Who are these peculiar people called Quakers?" Led by a diverse panel of Friends.
pm 4:00 Grief process and support group.

Senator's Notebook

Senate Secretary Brian Sugioka

The last week was a busy one for the Community Senate.

The steering committee had its weekly meeting Monday night. The agenda for the Wednesday meeting was discussed as well as preparations for the Senate retreat planned for the weekend.

The full Senate meeting on Wednesday was the first one of the year and served as an opportunity for the senators to get to know each other and to learn what will be required of them this year.

The basic duties of senators will remain unchanged. Senators will still be responsible for communicating the business of Senate to the student body and for getting student reaction to proposals being discussed.

Senators will also be expected to bring concerns of students be-

fore the Senate.

This year every senator who represents a residence hall will receive two copies of the weekly minutes, one for their own records and one to be posted in the residence hall they represent.

The agenda of Wednesday's meeting consisted mostly of internal business.

Laura Greene was proposed as a co-treasurer to work with Keith Valbuena; Lou Willis and Caroline Biber were proposed as the chairs of the Student Residence Council and the Student Services Committee.

R.J. Nickels and Brigitte VandeWalle were proposed to co-chair the newly formed Community Relations committee; Michael Pruden was proposed as minority senator; Lessia Kovalenko was proposed as international senator; and

Mike Kopcsak and Mike Sick were proposed as academic senators.

Due to a rule authored by last year's senate president, Guy Vitaglione, requiring at least one week between introduction of a proposal and decision on it, these proposals will not be accepted until next week at the earliest.

In other business, Vice-president Jamie Whitehead announced that Judicial Board and Res. Hall board applications will be accepted through Friday.

For news about the Senate retreat that took place over the weekend, refer to the article in features.

The Community Senate will be holding its next meeting on Wednesday at 3:30 in Boren Lounge. Any interested people are encouraged to attend.
