

WELCOME

The Salemite

GREETINGS

VOLUME VI.

WINSTON-SALEM, N. C., SEPTEMBER 12, 1925.

NUMBER 1

Changes Made in Faculty and New Department Added

Four Additions to College Faculty, Including Instructor in Social Sciences; New Member Academy Faculty.

The present summer has been very closely occupied by the College and Academy administration in an extensive interior renovation of both the College and Academy plants and in addition very considerable improvements particularly by the addition of the new Henry T. Baldwin Memorial Infirmary which will be opened for the first time with the new term in September. Fewer changes than ever before have been the case are being effected in the Faculty.

Miss Jackson, former Head of the Mathematics Department in the College, retires for rest and recuperation, and is succeeded by Miss Mary S. Day, who has completed her work leading to the Doctor's degree in Mathematics at Columbia University and is a teacher of extended experience in this subject. In the Academy Miss Mary A. Weaver, degree candidate from the Macon Women's College and for several years successfully engaged in teaching Mathematics in the Grove Park School at Asheville, will take charge of the subject of Mathematics and will also assist in the physical training program of the Academy, which this year will be considerable enlarged. Miss Elizabeth Zachary of Brevard, N. C., becomes the assistant in Salem Academy to Mrs. Herndon, House Mother. Miss Zachary is well known in Winston-Salem, having graduated at Salem College two years ago with the degree A. B. and having served as Head of Student Body of Government and as President of the Athletic Association. She has been successfully engaged in teaching in the Brevard High School.

Enlarged work will this year be offered in the Department of Social Sciences and Economics under the direction of Miss E. S. Covington, recently Dean of Women at Meredith College and Professor of Social Sciences in that institution, and previously associated with the North Carolina College for Women and earlier with Davenport College. Miss Covington received her A. B. degree from Shorter College and her A. M. from Columbia University. At this time a graduate thesis which she prepared on "Unesco Law in North Carolina" attracted much attention. She has travelled extensively in Italy, France and England.

Temporary arrangements have been effected with Rev. George Heath, now on furlough from mission fields in Nicaragua, for college instruction in Modern Languages and a readers position in English. Mr. Heath, well known in this community, was prepared for college at Fulneck, England, Moravian School and the Manchester Grammar School, having passed the Cambridge and Oxford local examinations with honors, he became a student in medicine for several

years at Manchester University and later perfected his knowledge of various foreign languages in Spain and Germany. Mr. Heath is the author of a Misikito Indian grammar and several treatises in the native languages of Nicaragua, Central America. Moreover, he is in the direction of the American Bible Society and the Moravian Mission Board he has been engaged in completing a translation of the New Testament into Misikito Indian. This translation is now appearing from the press.

RONDTHALER MEMORIAL INFIRMARY

Student Council Greets Freshmen

President Explains Purpose of Organization and Requests Co-operation.

Welcome Class of 1929! Though the members of the Student Self-Government Association lack the oratory of Demosthenes, they mean to prove by a friendly smile, a hearty handclasp, and any possible service that they may give that they are the friends of every new student.

The Association stands for the advancement and betterment of each individual student. Its purpose is to build character and to create a constructive school spirit, which always has and always will characterize Salem, and this purpose may be attained if every student gives the proper co-operation. Being a member of the Association develops initiative and lends incentive to uphold the standards which have ever been Salem's.

The Student Council is composed of eight members elected by vote of the entire stu-

dent body. Three citizens and four representatives are chosen from the Senior Class; two officers and three representatives from the Junior Class; three representatives from the Sophomore Class and three from the Freshman Class. The representatives from the three upper classes were elected last spring while those from the Freshman class will be chosen as soon as the class has been accorded active membership in the Association. The officers and the executive committee are elected annually to serve the rest of the student body to the best of their ability.

Each student has been given a handbook which contains the constitution, the by-laws and the other regulations of the organization. It is of utmost importance that everything that is in the handbook be thoroughly understood by each student in order that she may do her part in building a system of perfect government.

With this helpful information and understanding, the council members feel that the co-opera-

tion they desire will follow as a matter of course. At all times and particularly in every case of discipline they strive to give absolute justice. They are the friends of all students and wish to give to everyone the very highest of welcomes.

Y. W. C. A. President Welcomes New Students

Gives Invitation to Everyone to Attend Meetings and Take Part in Work.

The Young Women's Christian Association is glad to welcome new students to Salem and hopes that they will readily and easily become adapted and will quickly learn to love Salem and all for which she stands as well as do those who have been here for a long time.

Rich is the heritage which Salem girls receive and many are the people who have worked and sacrificed to make possible the Salem of today. The Y. W. C. A. hopes that every Freshman will quickly catch the notable spirit of our Alma Mater and

thus be able truly to enter into all worth while campus activities.

On the campus are to be found many organizations which have a part in student life. The Y. W. C. A. has heretofore played a large part in the daily life of the students and now welcomes every new student to help it take an even larger part. The Association welcomes everyone to its weekly meetings and cabinet meetings and extends an invitation to students and faculty to make use of the Association or any of its branches.

NEW INFIRMARY—Concluded

For the first time we will be living on the campus when you arrive. The beautiful new President's House is yours as well as ours, and we want you to know that you are always welcome there. We want to know you each one, and you may often long for a little bit of home atmosphere when dormitory life becomes overwhelming.

Our latch-string is always out for you.

Most sincerely yours,
Katherine B. Rondthaler,

There are electric connections in all the kitchens just now, so that you will receive the plugs of your percolators and toasters and Tudrey chafing-dishes. Even Society Hall has a little private kitchenette corner all its own; and room 201 in Main Hall has deftly transformed itself into another kitchenette.

The new Infirmary is all ready to receive you, and our only fear is that you will get sick on purpose just because it is so pretty and attractive with its sunny yellow curtains, and cozy white beds, its charming diet kitchen containing white porcelain and the bright little sun-porch and sitting room. In spite of the fact that it is so abiding, I am devoutly hoping that Dr. Föhl will not send business this year.

You will be glad to know that Miss Heath will be in charge of the Infirmary. She has already endeared herself to many of the girls. Miss Daisy Bacot of South Carolina will be her assistant.

Mr. Tally has successfully placed (and only he could do it) a lovely old fountain in the Infirmary grounds. This will make a particularly pleasant outlook for the girls who run on the south of College Extension and on the west of Society Hall.

We have flowers in the campus this summer—a new thing. Mr. Thompson and Mr. Howell, who are both born gardeners, have scattered seeds here and there and made many bright spots in the habitual campus green. Some of the flowers are still blooming for you.

Mr. Tally has made a new path down into the Pleasure Grounds, which as you all know is the lower campus.—I just love to use the old name. It is a gently graded path with two easy resting places,—two cozy seats for chatting. I feel sure that this new path will lure you down oftener into the companionship of the tall old trees and the myrtle covered slopes and the glittering little stream.

The Swimming Pool has been open all summer for the Salem girls in town, the Alumnae and their children and other invited guests. We have had lots of fun in it, and have been refreshingly cool all thru the hot days. Mrs. King has capably managed it and is still in charge. You will all like her so much. Dot Frazier, Pearl Fisher and Barbara Heath have been the swimming supervisors for the summer. I know that you are all eager for your first dip.

One of the delightful features of this year will be that we will have all the women faculty living on the campus. The second floor of Main Hall has been given over to faculty rooms. This will bring them more than ever into our college family, and I know that you will welcome their presence heartily.

New Infirmary Ready for Use; Miss Heath in Charge

Mrs. Rondthaler Makes Announcements About Infirmary and Various Other Campus Improvements

Dear Girls, old and new:

You wouldn't believe it, but all summer long Salem has been getting ready for you. And now she is scrubbed and swept and varnished and made comfortable and opens her beautiful old hospitable doors to you.

For so many, many years Salem has been the tender and careful Mother of thousands of girls, and in just this spirit she opens her arms to you this year and bids you a motherly welcome.

—Alma Mater.

We have been thinking of many little things which we hope will add to your happiness and comfort.

There have been arrangements made for more and better hot water, and I can hear you all say—"GRAND."

You will be glad to know that Miss Heath will be in charge of the Infirmary. She has already endeared herself to many of the girls. Miss Daisy Bacot of South Carolina will be her assistant.

Mr. Tally has successfully placed (and only he could do it) a lovely old fountain in the Infirmary grounds. This will make a particularly pleasant outlook for the girls who run on the south of College Extension and on the west of Society Hall.
