(Watch the Daily Papers for Surprise Announcements)

FRI. & SAT.

AMUZIE plays "Bebe Daniels" in "WILD, WILD SUNDAY"
Monday and Tuesday.
ALWAYS GO TO THE AUDITORIUM OR AMUZIE.

Scientific Society

Makes Announcement

Explains Membership Requirements; Gives List of Officers and Executive Committee

The Societas Scientiarum Salemensis was organized in the fall of 1924, for the general purpose of furthering scientific knowledge and interest among students.

The active membership is limited to twenty-four members. Before a student can become a member, she must have passed two courses in science and must pursue a scientific subject throughout her college course. Appli-

cation blanks with references must be filled out and submitted to the vote of the society before a person can become a member. To retain membership a student must pass all academic requirements.

The following officers have been elected for the year 1925-1926: President, Alpha Shanon; Secretary-Treasurer, Laura Thomas; Executive Committee, Kathryn Emmart, Ruth Eford, Ruth Perkins.

A crowd out that feeling of homesickness with good eats from your "Y" store, open every night from ten o'clock to ten fifteen.

Pierrette Players

As all things have their beginning, so Salem must open again, and welcome the old and new girls to live in her ivy-clad buildings for another school year. With the opening of college there always comes the beginning anew of the work in the various organizations, and the members of "The Pierrette Players," the permanent dramatic club of Salem, wish to begin the year 1925-26 by first extending to all of the students, old and new, a very hearty welcome to Salem and the Dramatic Club.

"The Pierrette Players" is the one organization in which a girl with dramatic talent is given a chance to express herself. Not only is the acting of plays dwelt upon, but also the various phases of drama are studied carefully and interestingly, so that during a year the members of the club may derive a great amount of material which will prove beneficial in their studies of English.

The meetings of the club are held twice a month, and at each meeting at least one member of the club is selected to read a play, while another member gives the story of the life of the author of the play which is being presented. Several times during the year special meetings are held which place emphasis on the social side of the club, and always prove very enjoyable.

During the past year "The Pierrette Players" presented three one act plays, "The Maker of Dreams" by Oliphant Down, "Suppressed Desires" by Ellen Glasgow, "Enter the Hero" by George Crane Cook, and one three act play "The Mollusc" by H. H. Davies. Both of the performances were well attended and very highly praised. This year the club hopes to give even better and more entertaining dramatic productions.

It is the desire of the club to have a student feel that membership is a rare honor; therefore the committee on membership will select girls for the try-outs after consultation with the faculty in regard to their scholastic standing and ability. There are two try-outs during a collegiate year, the first one occurring the first week in November, and the second one the first week of February, so if a girl is not able to enter in the fall she may have another opportunity at the beginning of the second semester.

The club is very fortunate in having as its director, Dr.

Willoughby, head of the English Department, a very capable, sympathetic and entertaining leader. It was through her splendid direction and that of the officers for the past year that "The Pierrette Players" enjoyed such a successful year in 1924-1925.

"The Pierrette Players" want new members, and need new members to take the places of the girls who left the club last year. Please everyone who feels dramatic inclined, keep her scholastic standing high, so that she may enter the fall try-out, and later the club itself.

The club is an organization which fills a gap in the college curriculum which for a long time has not been filled, because it is striving, with the co-operation of its members, to make the study and presentation of plays a necessity for the better understanding and appreciation of this great type of literature.

Athletic Association

Plans Are Made Known

President Urges All Students to Go out for Sports; Gives List of Officers.

Basket-ball, swimming, tennis, volleyball! Everybody come out and show her class spirit! Activities will begin soon!

To become a member of the Athletic Association, a student must engage in at least one sport. For instance, if a student goes out for swimming, she has automatically become a member of the association. The college records show that a much larger per cent of students participated in the various sports last year than did so the year before.

The Athletic Association has a chart which shows the per cent of members of each class who are taking part in some form of sports, and there is much rivalry between the classes. All through the scholastic year, there are inter-class games of different sorts, with cups awarded to the winning team, letters, class numerals and sweaters to individuals.

So far, Salem students have shown a gratifying enthusiasm in the field of athletics and it is to be hoped that this year all preceding records will be surpassed. The Athletic Association urges every student, old and new, to give her heartiest sup-

Open Forum

There is probably not a single person on earth who some time or other does not suffer from homesickness. It attacks school girls, especially freshmen, in its worst forms. There is no misery comparable to that extreme longing for home which one feels can not possibly be satisfied for endless months. It makes the first few days at school almost unendurable. The newness and strangeness of college and the difficulty of adapting oneself to surroundings totally different from those to which one has been accustomed cause one involuntarily to turn one's thoughts towards home. It has probably never looked so sweet and inviting as when viewed from this distance.

Without doubt, the first few days of college life are extremely difficult for incoming freshmen. The strain of getting settled, the lack of friends, the lessons which at first seem long and hard make one feel very small and miserable. The glamour of being a "college girl" seems to have disappeared far into the distance and one thinks longingly of the happiness of the past summer and the absence of care and worry which one enjoyed at that time.

The old girls at Salem do all that they can to make the new ones feel more at home but one must remember that their time is largely taken up with their own duties. The lonely freshman has a miserable feeling that everybody knows everybody else but her.

Fretfully, homesickness is not an incurable malady. The best and speediest remedy is to cease thinking about oneself and to take an interest in outside activities and in making new friends. It is surprising how rapidly homesickness disappears and other interests take its place. One can not be busy and homesick too, and one is much happier busy. There is always so much to be done that one has little time to waste in tears and in feeling miserable.

Sometimes a girl thinks she cannot possibly endure the new life and the separation from home; she gives up and leaves before having had a real taste of the joys of college life. The girl that sticks it out and resolves to make the best of things has a feeling of triumph and accomplishment at the end that compensates fully for the unhappiness of the past year, one has felt at first. If one remembers that she is not the only homesick girl at school, that it is possible to have a good time as well as to work hard, and that Christmas holidays with all their joys are not very far in the future, she will find that homesickness will rapidly disappear to be succeeded by a feeling of contentment and eager anticipation.

LEONORA TAYLOR.

port and co-operation to its leaders.

The officers are as follows: President, Mary Alta Robbins; Vice-President, Elsie Barnes; Secretary, Ella Raper; Treasurer, Sarah Turbington. May have heads of sports are Ella Raper, Basket-ball; Amelia Morrison, swimming; Sara Bell, tennis; Virginia Welch, walking; Elizabeth Shaw, volley ball.
