The library is a very valuable and necessary part of Salem College, and it is right that every girl should use it. But it is selfish and unfair for her to abuse the privilege. Books are placed on the shelf not for one girl alone, but for many, and if one girl takes a book and fails to return it, several must suffer for her carelessness. It is selfish and dishonest for one person to take a book and keep it out so that no one else can use it. When you get a book, have the librarian mark it up, and return it at the right time.

Now that the air has a touch of frost in it, and is healthy and invigorating we hope that every girl will take advantage of the athletic opportunities which are being offered. Several sports are open to everyone—walking, volley ball, basket ball, and in almost every case the head of the sport or the captain of the team, is complaining that not enough girls are coming out. We want all the sports to be better than ever this year, and there will be full amount of enthusiasm only when every class has a team in every sport.

Some girls, both freshmen and upper-classmen, have been anxiously counting up the weeks and days until Christmas. This is a waste of time. Devote yourself to the work of today and Christmas will come soon enough—perhaps too soon. We are sure that everyone has plenty to do if she will only do it. Keep busy; don't idle.

First Regular Saturday Hike Led By Miss Chase

Hikers go out in Direction of Ardmore; Enjoyable Walk.

Saturday afternoon, October 3, at 4:00 o'clock, thirty-eight girls under the direction of Miss Chase were seen briskly walking away from Salem College. They walked out to Granville, and through the woods to Paper Mill Creek. They then climbed a hill and turned north to Ardmore. Having walked north a distance, they cut down a hill where a new bridge is being built. This was an unusually pretty walk, and the Salem girls were very interested in seeing the curing of tobacco at many of the farms. The walk was very successful, and greatly enjoyed by everyone.

Marjorie Tate Is Judged Prettiest For Statistics

Miss Margaret Tate, of the Class of 1928, has been chosen the prettiest girl, for statistics for the Annual. All the contestants from the four different classes, were introduced to Mr. Hugh Owen, of the famous Players Lasky Moving Picture Company, who acted as judge. In his letter to Rosa Caldwell, Editor of *Sights and Insights*, he declared that all the girls deserved honorable mention, but that in his opinion Marjorie Tate was the prettiest. Other representatives were: Alpha Shiner, Eva Flowers, Jenny Wolff, Bessie Clark, Dorothy Rosemond and Mary Johnson. Sara Kincaid was selected by her class as a contestant, but was ill, and unable to be present.

First Swimming Meet Held At Salem College

Diving and Swimming for Form and Speed Form Contests.

Saturday afternoon, October 4, at three o'clock a new athletic event in the history of Salem took place—a swimming meet. This was a most interesting spectacle, and the girls participating showed ability in the water.

The results of the swimming meet are as follows:

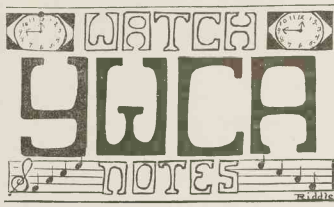

- Twenty-five yard swim for speed (any stroke) won by Lilyan Newell—time 15 2-5 seconds; second place—Frances Wilson.
- Twenty-five yard swim for form, (side stroke) Lilyan Newell, Marion White and Frances Wilson tied for first place.
- Twenty-five yard swim for speed (back stroke) won by Dorothy Frazier—time 25 1-5 seconds; second place, Frances Wilson.
- Plunge, won by Dorothy Schallert—distance 35 ft. 6 inches; second place, Rose Fraser—distance 34 ft. 7 inches; third place, Janie Little; distance 34 ft. 5 inches.
- Fifty yard swim for speed (any stroke) won by Janie Little—time 47 seconds.

- Diving**
- Dorothy Frazier 43 pts.
 - Edwina Rowe 41 "
 - Janie Little 32 "
 - Dorothy Schallert 31 "
 - Rose Frazier 31 "

Final scores for Meet:
Dorothy Frazier 10 points, first place; Frances Wilson 9 points, second place; Lilyan Newell 7 points, third place; Janie Little 7 points; Dorothy Schallert 5 points; Pattie Brawley 5 points; Rose Frazier 3 points; Marion White 3 points; Edwina Rowe 3 points.

After the first few Y. W. C. A. gatherings every girl in college knows what a true "Y. W." should be, and what every one is trying to make Salem "Y. W." Its activities have been explained, and now it is up to each member of the Association to make it active and alive in every field and phase of its work. The Freshmen told what they expected to get from their college Association, but their expectations cannot be fulfilled until "Y." really gets to work and gives to the girls in return for their service and efforts.

Last night presented an interesting half-hour, for it showed the college girls how they might help girls less fortunate than themselves. Girls are girls the world over, and all have their interests in common. City Y. W. C. A. girls probably have harder trials to overcome than the college girls, but there is always opportunity to "live unreservedly Jesus' law of love in every human relationship and so to know God," service, real service, is a means for accomplishing this purpose.

The meeting next week probably be different from those already presented, but each girl should bear in mind her duty and privilege to give it her hearty support. The program from now on will be varied and interesting. "Watch Y. W. C. A. notes," and then act accordingly—come to the meetings!

One of the Freshmen told what her ideal of a College "Y" girl should be, and the girl whom she depicted was assured a popular, capable, and well-loved girl. Who does not admire a true Christian girl? one who has some initiative, college and class spirit, and an unselfish disposition? The ideal "Y" girl is also "The girl we all like." Here she is—Think over her attributes:
The girl who is sunny,
The girl who has a heart,
The girl who is cultured and re-

The Ageristic, published weekly by the student body of Agnes Scott College, has a new department called the "Good Manners Column," which corresponds to the "What-Is-Wrong With-This-Picture?" classic. There seems to be no such column in any other college paper, and the experiment looks interesting.
