AT THE CAROLINA

For the first three days of next week, a special treat is in store for those of you who are comedy lovers. Marie Dressler and Polly Moran, two veteran comedienne, co-star in "Caught Short," the stage production which Eddie Cantor made famous. You will laugh from beginning to end, for anything which Eddie Cantor starts and Dressler-Moran end is bound to be a scream! The story is that of two New York landladies who are lured by Wall Street. Their ridiculous speculations bring them first profit and then catastrophe when there is a slump on Wall Street. In the supporting cast are Charles Worton and Anita Page, who furnishes the love interest and plenty of it. "Caught Short" has two snappy song hits, "I'm Spanish Now" and "Somebody."

On Thursday, Friday and Saturday, a real climax is attained when the Carolina presents "Paramount on Parade." Such a Galaxy of stars has never before been witnessed in a single picture. Little Miss Queen of "Honey" fame, is one of the biggest bets of the show. Maurice Chevalier and Evelyn Brent do a splendid song and dance skit together, while Budde Rogers and Lillian Roth sing the charming "Any Time's the Time to Fall in Love." Clara Bow is there, too, with barrels of "It." Nancy Carroll and Helen Kane, both former musical comedy hits, are in their element, and furnish a lot of good snappy numbers. Many of the scenes are in technicolor, especially those of Chevalier and Dennis King, William Powell as Philo Vance, Clive Brook as Dr. Fu Manchu furnish the more Sherlock Holmes, and Warner Oland dramatic hits in the show.

Elsie Janis, world-famous stage star, supervised the entire production, while many of the biggest directors in Hollywood lent a hand to make "Paramount on Parade" the shining spot of the year in the theatre.

AT THE STATE

On Monday, Tuesday and Wednesday of next week the State theater will show Ramon Novarro in "In Gay Madrid." No other star could play the leading role with better emphasis at the right places, (if you know what I mean), than Novarro. Ramon Novarro is really telling his own life story, merely playing his own life in pictures. It is the story of a young university student who has been sent to Santiago because of an affair with a dancer. Here he falls in love with Carrol, she loves him but is engaged to another man. This situation is the one which is facing the two lovers, and we'll leave you to find out how they, at last, find happiness. Dorothy Gordon who played opposite Ramon Novarro in "The Pagan" is again his leading lady. In addition to a splendid supporting cast, there is a male chorus of fifty trained voices which sings with Novarro "Dark Nights," "Let Me Give You Love," and "Into My Heart."

During the latter half of the week, Warner Oland will again be seen in one of his superb Chinese roles. This time it is "The Return of Dr. Fu-Manchu," a sequel to the "Mysterious Dr. Fu-Manchu" in which Mr. Oland starred several months ago. These Chinese pictures based upon Sax Rohmer's weird and uncanny stories have had a tremendous popularity, and it is said that the forthcoming production is the best of them all. It leads you from the Ritz in Paris, to the opium dens in New York; from the dripping foggy wharf dives of London to the gambling rooms at Monte Carlo, yet in spite of its cosmopolitan exterior, everywhere is felt the hand of Fu-Manchu, and everywhere his terrifying figure creeps.

Mary L.—Was there a light burning for you when you got home from the party last night?
 Mary C.—No, I thought there was but it was only the reflection of the sun on the window.

Y. W. C. A. INSTALLATION PROVES BEAUTIFUL EVENT

(Continued From Page One)

The co-operation and assistance of the Faculty Advisory Board, and (3) The co-operation and personal aid of every individual in the association. She brought out the fact that prayer and consecrated service would do more than anything else toward making the Y. W. C. A. an ideal Christian Association. She ended with a verse of Scripture: "I can do all things through Christ who strengtheneth me."

Then Bishop Rothdhaler in a prayer thanked God for the work of this year's Y. W. C. A., and asked His blessing on the Y. W. C. A. next year. After another hymn the benediction was said. The service was concluded and the audience with lighted candles, preceded by the Cabinets, went out to the tune of the recessional, "Follow the Gleam."

THE "Y" STORE RING IN THE NEW

What manner of women are these who have such airs of ultra-dignity and superior stateress? They can't be Seniors suddenly grown younger and case-free? They can't be part of those classes whose members are "old over night" from arranging schedules. Can they be, could they be, does anyone desire more than that they be the glorious Juniors? And again, superior stateress is the result of a certain intangible gift of the institution to these most worthy young women.

No more pitiful glances toward the "aging out" Seniors who are headed "drug-ward," (if you get what is insinuated). No more "I've had my date"; no, that is history now for those very deserving ladies—Rather it's "Who wants something from the drug," and "Yes, we can go out twice a week." Oh, such blithe spirits, and yet have you ever seen more charming ones? "Senior privileges" are worthy of dignity and surely these who have lately had such bestowed on them have left room for a great expanse of the said things. No imitations are allowed, but if the truth must out, "To them that wait, shall be given." Luck to you Juniors, in this first lap of your seniorship.

Fay—I hear they are going to make the class periods 10 minutes shorter this year.
 Ray—That won't do. We're not getting enough sleep as it is.

World News

Norway mourns the death of Dr. Fridtjof Nansen, famous as an explorer and worker for the betterment of humanity. He had planned a trip to the Arctic country next year and he was wishing to search for his intimate friend, Dr. Roald Amundsen, who was lost in 1928 while searching for the Italian div- ible Italia in the Polar regions.

When the new long distance air service is inaugurated this week in England there will be fifty large air liners arriving and departing daily at Crodon, establishing 100 miles an hour, communications with all parts of Europe, as well as North Africa, Persia, and India.
