Richmond—Virginia's Drought Relief Committee has decided to call upon Congress for a special appropriation to be repaid from Federal aid road funds over a period of ten years in order to push highway construction and relieve unemployment and distress in drought stricken areas.

The plans, advanced by Governor Pollard, contemplated a bill for a special drought relief appropriation of \$5,000,000 for each designated drought State to be available as soon as the bill is passed. This together with the 1931-1932 Federal aid funds, which Congress will also be asked to make available at once, would give to the States an estimated \$7,500,000 for road building.

DR. POTEAU ADDRESSES WAKE FOREST COLLEGE

Mezgars and died at Brundisium in 19 B.C.

Before he died he requested that his manuscript of the Eneid be brought to him that he might destroy it, for he had not finished his careful revision of the poem. His friends, however, realizing the value of the manuscript, did not grant his request.

Vergil has suffered more from editions and commentaries and discussions and lectures and essays and analyses and all the other potent weapons of the professional armory than any other genius, ancient or modern," Dr. Poteau declared. He went on to discuss the influence of the "prince of the poets" through the ages. "It is hard to find a single Roman poet who does not owe a debt to Vergil," he stated. In modern literature Spenser, Milton, Poe, Dryden, Wordsworth, Shelly, Tennyson, and others of the world's greatest are influenced by Vergil.

The Eneid was first published two years after the death of its author. "It immediately became a favorite text book," said Dr. Poteau, "and maintained its high position in the school curriculum until modern pedagogy discovered that the construction of chicken-coops is a more important subject than Vergil's immortal poem."

Dr. Poteau concluded his address by reading Tennyson's poem, "The Request," which was written at the request of the Mantuanus for the nineteenth century of Vergil's death.

Miss Minnie J. Smith spoke at evening watch on Tuesday evening, taking for her discussion three verses from Isaiah 26. She stated that we find peace by trusting in God, that He makes it possible for us to be undisturbed by the worries, the irritations and the angers of every day life, and that He gives us confidence in the greater problems of life so that we need not be appalled by anything, but serve as well as we can without lethargy or discouragement.

The Student-Industrial Commission will be organized this week, the activities of the year to be begun with a picnic supper at the Y. W. C. A. camp near Winston-Salem. The Commission will have as its personnel a group of college and industrial girls who are interested in sharing its mutual problems and in finding out "how the other half lives." Meetings will be held every two weeks, alternately at the city Y. W. C. A. and at Salem College.

Miss Mary Weaver, of the faculty of Salem Academy will be the speaker at the Vesper Service tomorrow evening. The subject for the service is "Fair-mindedness" as a quality of character which we need in service to others. Special music will consist of a clarinet and flute duet.

"FREEDOM"

"I am not strong till Thou has clasped my hand,  
I am not fit till by Thy side I stand,  
I am not brave till Thou has come to me;  
Thill Thou has bound me fast, I am not free."

COMMENT CONCERNING CONGENIALITY

The things that you like, I like too;  
The way spring comes to Central Park,  
A silky tie of cobalt blue,  
And Broadway after dark.

The things that you like, I adore;  
Foie gras, Van Vetchen, dry martinis,  
A carved Colonial front door,  
Boston baked beans.

The things that you love, I just date on;  
The way you dance, the way you swoon,  
The way you put your overcoat on, You.
