

PLANNING LIFE PROGRAM IS SUBJECT OF Y. P. M. TALK
(Continued from Page One)

"provider" as quickly as possible and marrying him. In those days the girl who shamefacedly admitted a desire to "teach" was regarded with "super-supercilious" stares (to use the ultra-adjectivity of our President).

Now, girls expect to plan what they will do with their lives, just as boys do. Our college life should be the time when we can "think soberly" about what we will be most delighted

in doing for the rest of our lives. Let us not be too timid to look into our own hearts and from what we see there to decide what we really want to do. Neither let us be so conceited that we will be deceived into choosing to follow the flashy, showy occupation. Above all let us not look forward to an unprogrammed life, one which will have to be buoyed up by others. But let us build up now a well planned, delightful, worth while, self-supporting program which we may gloriously and happily carry out.

THE INDUSTRIAL WORK OF THE "Y"

The Industrial Group of the Y. W. C. A. has been doing very interesting work this year.

In the fall some of the girls from the city "Y" met with the Industrial Group of the Salem "Y" under the leadership of Miss Gladys Myer, the Industrial Secretary. During these meetings the two groups of girls learned to know each other and to see the problems of each. During the meetings that began last Tuesday problems that are of great interest to both will be taken up, e. g.,

industrial education, college education, and discussions relating to the economic problems of the day. Besides these meeting several trips have been taken through the factories of the city.

RADIO EDUCATION

The educational hour over WSJS that created interest in the fall is being continued now. Miss Helen Hart Fuller conducts the music hour, Dr. Ansonbe the history talks, Dr. McDonald daily events, Mr. McEwen, the place of the movies in education and Miss Lilly, English. Salem girls should listen in on this valuable instruction.

GOOD TASTE IS EVERYTHING

In cigarettes, too! So in making Lucky Strike cigarettes we use the finest Turkish and Domestic tobaccos—and only the

center leaves—they are the mildest, the smoothest. And every Lucky is so round, so firm, so fully packed—no loose ends.
