

HAT BURNING THURSDAY NIGHT

(CONTINUED FROM PAGE ONE)

We'll stay fancy free, Keep our youthful jollity Now let's crown the queen to be, Hail, Frivolity!

(one side) Hail, Frivolity (Other side) She th' epitome (First side) of our gaiety All Hail, Frivolity!

Mary: Hey, hey! can't you see You're all wrong from A to Z You can't crown Frivolity Where's your dignity?

All: Who's that sorry clown Standing there in cap and gown She will try to get us down.

Mary: Hush, don't make a sound You've gathered your roses, now I'm afraid you'll find Your tip-tilted noses you will just have to grind.

They finally became convinced that they must toss their gay hats

into the flames, and poor Frivolity also met her doom when she was seized bodily and cast into the blazing pile. They sang:

This is tragedy We must burn Frivolity But we see that this must be Down, Frivolity.

Erigh! hat off my head. Gaudy clothes must now be shed Don a cap and gown instead Now my past is dead.

The waiting pages filed into the ranks of the Seniors, and helped them into their black robes and caps. Garbed in dignity, the Seniors sang the Alma Mater and marched off, followed by the pages.

I Hear That—

"When Mrs. Downs is chasing Buddy he turns and says, 'Next time get Ethyl.'"

I don't think much of a man who is not wiser today than he was yesterday.

Plenty food, plenty rain, plenty music, but there's the little story about the orchestra being side-swiped before it could get there. Too bad, so sad, they had.

AFTER "LAB"...

RICHARD WHITNEY, '35—Majoring in chemistry. "A Camel tastes simply swell," he says, "and what is more important, it refreshes my energy."

GET A LIFT WITH A CAMEL!

A PLEASURE that drives away fatigue and listlessness!

"I'm specializing in chemistry, which means a large amount of 'lab' work," says Richard Whitney, '35. "It's interesting—but a tough grind. After a long, hard session, a Camel tastes simply swell—and what is more important, it refreshes my energy and I feel 'fit as a fiddle' in short order. I've smoked a lot of Camels and never yet have they ruffled my nerves."

Everyone is subject to strain—whether physical, mental, or emotional. So it's important to know that Camels do release your stored-up energy.

The findings of a famous scientific laboratory have confirmed Camel's "energizing effect." So begin today to enjoy Camels. Enjoy their wholesome and delightful "lift." Enjoy their mildness and rich, good taste. Enjoy them often! Camel pays millions more for finer, more expensive tobaccos, and the costlier tobaccos in Camels never jangle the nerves.

SPORTSWOMAN PILOT. Mrs. Cecil Kenyon, of Waban, Mass., says: "Speaking of cigarettes, Camels are the mildest cigarette I know. Morning, noon, and night I can smoke them steadily—without a touch of upset nerves."

ALL TOBACCO MEN KNOW:

"Camels are made from finer, More Expensive Tobaccos—Turkish and Domestic—than any other popular brand."

CAMEL'S COSTLIER TOBACCOS NEVER GET ON YOUR NERVES!
