## ALPHA IOTA PI HOLDS ITS REGULAR MEETING

### Mr. Theodore Rondthaler Speaks of Horace

On Thursday night, February 14, Alpha Iota Pi held its regular meeting in the recreation room of the Louisa Wilson Bitting Building. Approximately twenty old members and five new ones were present.

The meeting was opened by the singing of the well known and beloved "Integer Vitae," from Book I of Horace's XXII Ode. After a brief introduction by Margaret Schwarze, the president of the club, Mr. Rondthaler, who is principal of Clemmons school, commented on the joy of finding twenty-five persons who knew, were interested in, believed in, and were happily entertained by Latin. He then began, with the club members a re-visit to Sabine Farm, Horace's beloved country abode. The speaker said that the joy of his visit to Rome was further enhanced by the presence of one of his former Latin teachers at the University, because the two met, not as student and teacher, but as fellow tourists and lovers of that great city and her poets and statesmen.

The journey to the Sabine farm was made, suitably, partially by foot in the lovely afternoon hours of an Italian March day. So vividly descriptive were Mr. Rondthaler's words, that the furniture of the recreation room gave way to the rocks, boulders, olive trees, red oaks and luxuriant vegetation of the Italian landscape; the light became the sleepy sun; and the cement floor was the lovely mosaic of the ancient farm house. To see this mosaic floor, which an old woman uncovered for him, Mr. Rondthaler paid the high price of two lira. Even though he discovered later that Boedeker denies the existence of such a farm (CONTINUED ON PAGE THREE)

## BABY BEST IS BEST BABY

### Rogue's Gallery Picture Exhibit Is Rollicking Success

Thursday and Friday of last week the Rogues' Gallery was open to the public. As the patrons entered the display room they were given a pencil and paper and were ushered to the pictures marked "Coy Cods" from which they then proceeded to the "Green Young Freshmen," "Bold, Bad Sophomores," "Love-Siek Juniors," "Stately Seniors," and finally, "Fickle Faculty." The object was, of course, to cause laughter but the people were asked as well to write down the names of the people seen in the pictures. Although everyone was of quite a well-known personage, it was a difficult job to guess correctly the name of the student or faculty member for the pictures were those of the celebrities in their infancy or childhood.

After having guessed, nearly every one voted on his or her favorite picture. After a close struggle Miss McArn Best's picture won. Misses Jane Williams and Mary Penn both (CONTINUED ON PAGE TWO)

## A.A.U.W. HEARS INTERESTING TALK TUESDAY EVENING

### Mrs. Busbee Discusses "Today's Hobbies"

Mrs. Julianna Busbee, of Jugtown, was the guest and speaker of the Winston-Salem branch of the American Association of University Women, at the Tuesday evening meeting, held in the Recreation Room of the Louisa Bitting Building.

By request, Mrs. Busbee spoke on "Today's Hobbies." This is one of the series of subjects being discussed for the group this year, all of which relate to the theme "Today's Challenge." Mrs. Busbee was well qualified to speak on this subject, due to her varied interests. She thoroughly believes in hobbies, both as divertimento and as an opportunity to accomplish something definite. Her idea of a hobby is doing what one really wants to do and not doing something merely because it is the vogue or style. One may have many hobbies simultaneously but when one ceases to hold interest, cast it aside and enter upon some new one, for the field of choice is large and the possibilities far-reaching.

Well known for her interest in education, Mrs. Busbee has attracted nation wide attention through her parent-teacher work at the district school near her home in Moore County. Gaining co-operation of the citizens of her community, she has encouraged the employment of the highest type teachers and has made this possible by attractive inducements.

The natural arts and crafts of North Carolina are another of Mrs. Busbee's pet interests. She is instrumental in getting before the public and on the market many handmade articles of North Carolina workmen, especially those of pottery.

## EXCHANGE COLUMN

- Did you know that:
1. Sunday is V. M. I. day at Mary Baldwin?
2. Meredith is called "The Angel Farm?"
3. A city jail is being built directly behind one of Mary Baldwin's dormitories?
4. Davidson boys are "Sweet Boys," at St. Mary's?
5. Freshmen are called "Lambs" at Duke. They are slaughtered when "frats" rush them for pledges.
6. "Skull and Bones," the U. of Va. paper, has changed more than any paper on the exchange since the new year rolled 'round?
7. The United States has one college graduate for every 44 persons.
8. During 1935, 7 eclipses will occur. A maximum number for a single year. This will not occur again for 550 years.

South Carolina: There is a "frat" on the campus that flips coins for its dates.

The latest married man on the campus has been offered a job in the Asheville School for Boys, but must live in the dormitory. How's that?

It was such a boring affair to register freshmen this semester that two teachers passed time by playing chess; another wrote poetry. I might add, that some of our Salem teachers wandered out to the drug store, others smoked a cigarette, and one knitted. Drab life.

## NEW ADDITIONS TO THE LIBRARY

### Library Receives Gifts

The Library has been most fortunate recently, in receiving many gifts from Alumnae or from friends of the College.

Mr. Moses Shapiro, who has proved himself a good friend of Salem, has just given "The Rise and Destiny of the German Jew," by Dr. Jacob R. Marcus. This book, coming as it does, during the anti-Semitic activities in Germany, will be of great interest to all who care to know what is taking place in the world today, outside of Salem College. It is a well written and stirring picture of Jewish life in Germany, against an historical background of more than a thousand years. The author has lived in Germany during the crucial years of the rise and growth of the Nazi party. He discusses here the actual value which has come to Germany through the Jews, the myth of Jewish economic dominance, and gives for the first time, a true and unbiased picture of the forces resulting in Hitler's meteoric rise. The latter part (CONTINUED ON PAGE FOUR)
