Football

NOTES FROM THE LOCKER ROOM

In your interest in football, you often forget the boys who are doing the playing. You do not know them personally, and can identify them only by their numbers. So, it is with the idea of helping you to become better acquainted with "the boys," that we bring you these side line remarks:

Gates Kimball, in spite of all the arguing about his eligibleness for the team, is going to be permitted to play on the Carolina Varsity when it faces the Deacs next Saturday afternoon.

Leonard Darnell, that sensational sophomore from the Children's Home, in Winston-Salem will see action on Duke's team against V. P. I. Saturday night in Greensboro.

More trouble. It is being questioned as to whether or not Archie Steel from Jackson, Tenn., is going to be allowed to use his kicking prowess on the Davidson team this year. Archie played for an unaccredited junior college before entering Davidson this fall.

FALL TENNIS TOURNAMENT UNDERWAY

The fall tennis tournament opens the end of this week with a doubles tournament for upper classmen and a singles tournament for the freshmen.

The courts have recently been resurfaced and are in excellent condition.

Josephine Hutchison, tennis manager, is anxious for the girls to sign up early and get off to a good start in order that the tournament may be completed before cold weather. Everyone is urged to participate in these early fall events and co-operate with the other students in finishing them up by the opening of the hockey season.

Last spring the tennis tournament was conducted in a different manner. Only singles matches were played. The players were divided into three groups according to the ability of the player. Willena Couch, a member of the senior class of last year, won the tennis cup in class A, her fourth consecutive triumph.

Sallie Emerson is assistant team manager.

A. A. HOLDS FIRST MEETING

Last Wednesday, Felicia Martin, President of the Salem Athletic Association, called the first meeting of the year of the Athletic Council. The prime purpose of the meeting was to discuss several business matters. Two committees were appointed for the year; finance committee, Carolyn Cherry and Jo Hutchison; points committee, Peggy Bowen and Mary V. Rogers. An important motion was passed concerning the renting of the lockers and dispensing of towels for showers in the gym. Lockers are now available at a nominal fee.

POINTERS ON POINTS

Today at lunch a green little freshman sat across the table from an upperclassman wearing a large monogrammed "S" on her sweater. The freshman, interested and curious, about the letter, asked the upperclassman what she had to do to get the letter.

"Well, you see, Jeanie," began the upperclassman, "here at Salem we make our awards on a point system. To get an "S," such as this one, you have to make a total of 20 points. But in order to get a monogram or any other award, you must either make varsity in one of the major sports, or excel in one of the minor sports. Also, just to be sure that the winner of a letter is an all-round sport, you must make points in more than one sport."

"Yes, I understand that," said the freshman, "but how do you get the points?"

"Oh, there are lots of ways to get points. For instance, in a major sport if you make your class team, you get three points. But if you are only a substitute you get one point. Then if your team is the championship team, you get one more point, and if you are chosen as a member of the varsity or the sub-varsity team you get two points or one point according to which team you make. Points are given to the team members of a minor sport — two points for the regular players, and one point for the substitutes. You can also be awarded points in tennis and swimming."

ADVANCE NOTE FOR FALL

Virginia Grey wears this two-piece fit of dress and box-coat. The one-piece dress is of wool, with zipper opening on the bodice. Neckline and ice insets are of matching plaid coat material. Miss Grey's pills are of brown suede.

VARIED PROGRAMS PLANNED BY CAMPUS ORGANIZATIONS

This year the various organizations and clubs on Salem campus are planning interesting programs and activities. These clubs with their presidents are as follows: History Club, Emma Brown Grantham; Psychology Club, Francis Turnage; Der Deutsche Verein, (German), Mildred Minter; Alpha Iota Pi, (Latin), Virginia Bratton; Mu Alpha Theta, (Mathematics), Josephine Hutchison; Pierrette Club, Elizabeth Trotman; Katherine Jane Hanes Home Economics Club, Bill Fulton.

HOW DUMB ARE YOU?

Here is a brain teaser to amuse you Salem girls over the week-end. Don't begin figuring it out until you have at least a day's spare time. Instructions: Don't peep at the answers until you have made an honest effort to arrive at a solution; check the answer and then grade yourself as follows:

A. If you answered the problem correctly without referring to the solution you (1) have heard the problem before; (2) are a liar. As punishment deduct 100 per cent from your score.

B. If you can't figure out the problem then turn to the answer and read the explanation. If you can understand this, award yourself 100 per cent; if not, just give yourself 100 per cent anyway, for trying.

Your final score will either be minus 100 per cent or plus 100 per cent. In other words you are either an idiot or a genius; and there's such a small difference between the two that you needn't worry about it

Problem:

There was a vacancy in the psychology department of a large university, and three well-qualified applicants desired the job. The president of the University decided to give them the following test in order to determine which one had the most logical mind, and would be, therefore, the best choice for the position. He said, "Now I am going to place you three men in chairs facing each other and blindfold you. Then with one finger I will touch each of you on the forehead. There is soot on one of my fingers. I may put soot on one man's forehead, I may put it on two of your foreheads, or I may put it on all foreheads. Then I will remove the blindfolds. If anyone of you sees soot on the forehead of either one or both the other applicants, you are to start tapping your foot. The one of you who can determine, through logic and observation of the other two men, whether or not you are marked with soot, and satisfactorily explain to me the reasoning you employed to arrive at your conclusion will receive the job."

Well, the president blindfolded the three applicants, then put soot on each of their foreheads (but of course, none of the men knew this). After the blindfolds were removed they all started tapping their feet (for, of course, each saw that the others were marked). No one said anything for a long time; but finally one candidate said "I am marked!" and he proved it to the president's satisfaction, getting one job. What was his reasoning?

(Answer on Page Five)

The annual candlelight recognition service, at which all new students will be recognized as members of the Y. W. C. A., will be held Sunday night in the old Chapel, at 6:30. Everyone is invited to come, and a special selection will be reserved for new students.
