

**ATHLETIC SAL**

Our hikers turned agrarian and visited the tobacco market on one of their special trips Tuesday. The trip seems to have had more of interest than just the auctioneering too — namely, the guides. (How 'bout this, Phyl Utley?) The hikers are also planning trips for later in the year, to the ice cream plant, Reynolds Factory, and other points of interest. Better come along — Maybe those places will have some cute guides, too.

Did you hear about the energetic bunch of horsebackers who rode for ever so long one afternoon and then went down on the hockey field for still another workout? Now that's more like the Salem spirit!! We notice that Frankie Tyson is still one of our most enthusiastic Hockey practicers. Our hats are off to you, Frankie! We knew you wouldn't let that smashed finger stop you! Don't forget, girls, Salem is to send teams to the Hockey meets at Williamsburg and Greensboro this fall. They say these trips are always loads of fun, so if you'd like to go along, just remember "Practice makes Perfect." Head out for hockey practice in the afternoons, and maybe you'll find yourself heading off on these trips.

**IF YOU'VE BEEN WONDERING ABOUT POINTS**

Ever since a list of athletic points for you Salemites was posted a couple of weeks ago, there have been questions concerning the number of points recorded for each person. Some of you have been wondering why you do not have more, and in reading the handbook through the other day we ran across a few rules that might help straighten you out on this subject.

The handbook says that for being a member of the class team one receives three points. This is true. But, and there is a "but" at the end of the point system, that is Article II, Section 4g of the A. A. By-Laws, there is this clause: "Seniors and Juniors who do not attend 30 per cent of the called practises of a sport will not receive any points in that sport but may play on the team," and "Sophomores and Freshmen who do not attend 40 per cent

of the called practises of a sport will not receive points in that sport but may play on the team." This means that even though a girl may come to every class game and heroically pull her team to victory, she will not receive three points unless she has come to the specified number of practices. Understand!

One more point that needs clearing is the one about tennis credit. Remember, if a girl defaults, she automatically forfeits the point she would have gotten for entering the tournament, and might as well forget she ever signed up.

These two subjects seem to arouse the greatest misunderstandings in broken-hearted athletes who are sure they should have more points chalked up beside their names, and we hope that they now understand where a few of those points may have disappeared. However, if you're still in the dark, we refer you to Article II of the Athletic By-Laws. (pages 46-48 of the Handbook).

**HOCKEY PEP-TALK**

Hockey has begun — and the Freshmen know it! But our upper classmen seem to have gone plase — we need some older girls to help our novices, and also to compete with them. Remember juniors and seniors — you were beginners two or three years back, and you know what it is not to have advanced players to lead the scrimmages. And just because you Seniors have no more Phys. Ed. class doesn't mean that you have no more senior class — in the months to come you'll need a good team, and you can get one only by constant practice.

Congratulations Freshmen — you're holding up your end heroically, and with the beginning you've gotten, you should be hard to beat. The same Sophomores as usual are coming out, and one or two others, but how about getting up some competition to make the class team. What we really need is more class and school spirit in the line of sports, and if we all get busy, we'll be able to remedy this situation.
