

# JUNIORS-SOPHOMORES LEAD IN HOCKEY TOURNAMENT

With a fine streak of good weather, and a fair bunch of teams, (but a scarcity of spectators), the Hockey Tournament is now approaching the middle of its run. The first game gave the Sophomores a 2-0 edge on the Freshmen. The game was mostly a scrimmage over the field during the first half; but at the beginning of the second half, the Sophomore forward line clicked with their passing, and the first goal was scored by Rosie Clark. Soon afterward Mac McLendon brought the score to 2-0, where it stood as final.

On Monday, Nov. 15, the Juniors got the first and only goal in the slow game with the Seniors. Peggy Nimocks scored it. The Senior team lacked the cooperative pull so necessary for the game, at first; and a defensive game was played throughout by both teams. The final score stood 1-0 in favor of the Juniors.

Down for a close and fast game, the Junior vs. Sophomore game filled the bill. The two teams worked

swiftly up and down the field, and the Sophomore defense was challenged twice by what seemed imperative goals. By miracle, as well as good backing, the final score was 0-0, which means there will have to be another game before the decision will be final. With some fast passing by the Sophomore forward line, the game should lean slightly their way.

The game scheduled for Tuesday, Nov. 16, between the Seniors and the Freshmen was played on Thursday, the 18th. The game was predicted to be close, and it was! A fast game showing superb workmanship on both sides resulted in a 1-1 tie.

Still to be played are the Junior-Freshman game, which should give the Juniors a win; and the Sophomore-Senior game, with the Sophomores victory-laden. If this prediction stands, the Sophomore team, which stood second in the tournament last year, will find themselves second to none this year.

### River on the Adriatic Coast. ON THE PACIFIC FRONT—

Colonel L. A. Dilleor, the spokesman for General Douglas MacArthur announced that the Southwest Pacific has less than 5% of American military resources and is now receiving less than 10% of what America is shipping overseas. This referred to ground troops and special equipment they require, but not to planes, or to naval forces, of which this area has practically none.

MacArthur's communique also reported the destruction of twenty Japanese planes that tried to raid Allied positions in the Ramu Valley of New Guinea. The enemy bombers and fighters were caught while raiding Allied Airdromes at Nadzab and Gusak.

This communique also revealed the sinking of an 8,000 ton transport, and the damaging of another large merchant ship.
