"Goodbye My Fancy" To Be Presented

The results of six weeks of practice on "Goodbye My Fancy" will be exhibited at 8:00 p.m., November 15 and 16 in Old Chapel.

The play is a three-act comedy by Fay Kanin. It is the story of a liberal Congresswoman who returns to her Alma Mater to be awarded an honorary degree. During her week-end at the college, she comes into conflict with the college president. Woven into the conflict are several of the faculty members and students.

Agatha Reed (Cary Borges) is a direct Congresswoman with a comprehensive view of what is going on around her. Woodie (Nancy Ramsey) is her observant, witty and efficient secretary who becomes very human when her feelings are shown.

Dr. Merrill (Bill Griffiths) is the president of Good Hope College. Dr. Merrill is a man who has lain aside some of his ideals but finds them again.

Matt Cole (Bryan Balfour) is a very self-confident "Life" reporter who succeeds in stirring up quite a bit of trouble in his short stay at Good Hope College.

Lewis States Two Needs Of Education

"American education must take the lead in meeting two complementary cultural needs: the need for integrated individuals, and the need for integrating individuals," said Dr. Michael Lewis in a speech to the Faculty Research committee last Tuesday night.

The integrating individual, or mutant, has vision and wisdom, and "can seize and evaluate what is unique among evolving cultural elements" without the use of set formulas. The American education system has been successful in forming integrated individuals, but has failed to encourage integrating personalities.
