HUGHES ELECTED MAY QUEEN

Alyea Will Demonstrate **Atom Power**

Chemical experiments and demonstrations of the workings and reactions of the atomic bomb will be a part of Dr. Hurbert N. Alyea's lecture to be at 8:30 p.m. on Tuesday, Oct. 28 in Memorial Hall,

Dr. Alyea, associate professor of chemistry at Princeton University, will be the first of the lecturers brought to Salem campus through the Salem College Lecture Series.

His overall topic will be Atomic Energy: Weapon For Peace. In his lecture, Dr. Alyea will trace the important scientific discoveries which have led to the production of the atomic bomb and explain how the bomb itself works.

He will tell of the effects an exploding bomb would have on persons a mile or two away and suggest protective measures against an atomic attack.

He will discuss the likelihood of other nations making atomic bombs, the necessity of world control of it, and the peac'etime uses of atomic power.

Spoke Here Last Year

Dr. Alyea spoke in Winston-Salem last spring before the American Chemical Society and proved himself to be a scientist with ability to explain the atom in terms comprehensible to the average listener.

Dr. Alyea graduated from Princeton University in 1925 and spent a year at the Nobel Institute in Stockholm, Sweden. He returned to Princeton for his Doctor's de-gree in 1929. The next two years he spent at the Univerity of Minnesota and at Kaiser Welhelm Institute in Berlin.

During the war, he carried out 1948 and '49, Dr. Alyea was visit- Week. ing professor of chemistry at the University of Hawaii. He won the New Jersey Science Teachers Association annual recognition award
