

News Briefs

A dinner for the Methodist students of Salem, Bowman Gray and Winston-Salem will be held at the Centenary Methodist Church at 5:00 p.m. on Thursday, Nov. 6. Plans for this and other activities of the year were discussed by the Methodist group on campus at their first meeting which was held Tuesday.

Eight student leaders will attend a Methodist retreat Nov. 7-9 at Camp New Hope near Chapel Hill.

The Art Club will show five German films with comments by Stanley Kimball on Nov. 6 at 7:30 p.m. in Room 103 South.

They will consist of *Don Juan's Wedding*, filmed in 1909, *Misunderstood*, starring Henry Porten; *The Cabinet of Dr. Caligari*, filmed in 1919; *Birth of a Nation* and *The Galem*.

Admission will be by Art Club film tickets only.

Elizabeth Krauss, Guillemette Roussel and Hadwig Storwitzer, Salem foreign students, will speak at a dinner meeting for the Salem alumnae of Winston-Salem at 6:00 p.m. on Nov. 7 in the Club Dining Room. Faye Lee, Senior Class

president, will also speak at this meeting.

Salem's chapter of Phi Alpha Theta, national honorary history fraternity, will entertain its new members—Barbara Allen, Fay Fuller, and Peggy Johnson—with a

banquet at the Forsyth Country Club on Tuesday evening, Nov. 4.

Dean Ivy Hixson is attending college days in Greenville, S. C. and Atlanta, Ga. this week. Last Tuesday she met with Salem alumnae of Greenville at the home of Mrs. Garland McGregor.

NOSE, THROAT,

and Accessory Organs not Adversely Affected by Smoking Chesterfields

FIRST SUCH REPORT EVER PUBLISHED ABOUT ANY CIGARETTE

A responsible consulting organization has reported the results of a continuing study by a competent medical specialist and his staff on the effects of smoking Chesterfield cigarettes.

A group of people from various walks of life was organized to smoke only Chesterfields. For six months this group of men and women smoked their normal amount of Chesterfields—10 to 40 a day. 45% of the group have smoked Chesterfields continually from one to thirty years for an average of 10 years each.

At the beginning and at the end of the six-months period each smoker was given a thorough

examination, including X-ray pictures, by the medical specialist and his assistants. The examination covered the sinuses as well as the nose, ears and throat.

The medical specialist, after a thorough examination of every member of the group, stated: "It is my opinion that the ears, nose, throat and accessory organs of all participating subjects examined by me were not adversely affected in the six-months period by smoking the cigarettes provided."
