## New '56-'57 Officers Installed In Chapel

### Graham Administers Oath

Judy Graham is being robed with Stee Gee president's gown by outgoing Louise Barron.

The installation of Salem College's new officers took place in Chapel on April 10. At this time Judy Graham, the incoming President of the Student Government, was given the Oath of Office by past president Louise Barron.

Before leaving office Louise made one specific request to the student body and new officers: "I urge you as individuals and as a group to strive to become interested and informed about the things that go on outside the realm of college activities. Many of us are guilty of such a lack of interest. We have a tendency to avoid new ideas and problems on a national and international level—excusing ourselves because of our age or because we see no way to change a situation. I believe the Student Government Association, of which you are all members, can foster this interest I speak of."

After being installed as President, Judy Graham, in looking toward the coming year, emphasized the many changes and challenges and maintained, "But most important of all these new aspects is this—I hope that Salem will be a little new spiritually next year. . . . In order to do this we must first renew our interest in our Stee Gee

our interest, our support, and our appreciation of it. Only then, with a unified Student Body, can your Stee Gee function smoothly. And out of this will grow that code of personal honor for which we all strive."

She concluded her speech by saying, "And my hope is that through Stee Gee we can all work together to meet the changes and challenges of this new year—that we can work together for a better and a new Salem spiritually, a renewed spirit of Salem."

As her first duty in office Judy gave the Oath of Office to the other Student Government and club officers. The Student Government officers include on-campus vice-president Louise Pharr, off-campus vice-president Cecelia Corbett, secretary Mary Curtis Wrike and treasurer Mescal Coe.
