

**Life Beyond The Square:  
Making It On Your Own**

**Could This Be You???**

**Scene I:**  
Late afternoon, Graduation Day. Suzie Salem is sitting on her suitcase in Salem Square.

"Oh how exciting to finally graduate from Salem. No more books, and the whole world is out there waiting for me."

**Scene II:**  
Three days later. Suzie Salem is still sitting on her suitcase in Salem Square. "Ummm. The whole world is out there... just waiting. I wish I knew where I could fit in. I sure wish the Refectory were still open. I'm getting hungry."

**Scene III:**  
A week later. Suzie Salem is still sitting on her suitcase in the Salem Square, admittedly a bit worse for the wear. "Boy, this is rough! I sure wish I had attended those programs on "Life Beyond The Square!"

**News Beyond The Square**

**Winston-Salem** - A local chapter of the Ku Klux Klan sponsored an exhibit Monday in the Main Forsyth County Library. The exhibit included robes, crosses and paraphernalia. But due to the fighting which broke out among Klan supporters, left wing groups and members of the National Socialist White People's Party the exhibit ended less than an hour after it opened.

The next day, a local leader of Federated Knights of the Ku Klux Klan announced that the group will rent the Benton Convention Center on March 25 to show a film glorifying the KKK.

James Dalryme, director of the Convention Center said that it is a "city owned building and must be rented to any group as long as its activities are legal."

**Winston-Salem** - The Winston-Salem Transit Authority will discuss the possibility of a five cent price hike in the bus fare, raising it to 40 cents. Inflation was cited as being the reason for the rise.

**Washington** - James Schlesinger, Energy Secretary, said yesterday that the government might have to force service stations to close on summer weekends. Also, the Organization of Petroleum Exporting Countries (OPEC) approved of the price increases announced yesterday by several members taking advantage of the supply squeeze brought on by the loss of Iranian oil.

Because of the squeeze, many oil companies had to limit the amount of fuel sold to customers. but the companies insist they can handle the current fuel supply squeeze without government rationing but Schlesinger warned about closing service stations on weekends by this summer.
