## Morrill Introduces New Staff

by Allison Buice

With the opening of Salem College's 210th session on Sept. 2, Dr. Richard Morrill welcomed a freshman class of 169 members, greeted familiar Salemites, complimented Salem seniors on their new black regalia and introduced new staff and faculty members. Opening Convocation was the occasion and Hanes Auditorium in the Fine Arts Center was the setting.

Introduced by Dr. Morrill as new faculty members were: Dr. Dean Baugher, associate professor of economics; Dr. John Coullard, assistant professor of economics-management, financing and accounting; Mr. Robert Fisher, instructor in economics.

Mr. Aubrey Highfill, instructor in business law; Ms. Jeanette L. Davenport, instructor in mathematics; and

Dr. Susan Mott Linker, instructor in Spanish and medieval Spanish literature.

Dr. Baugher has his BS from Bradley University and his MS from the University of Florida. Baugher has taught at Clemson, Rollins, Mercer, West Georgia College and Illinois State. He is teaching Consumer Economics and Money & Banking at Salem.

With a BSEE from Louisiana State and an MBA from Syracuse, Dr. Coullard has taught at Wake Forest University, Forsyth Technical Institute, Cape Cod Community College and Boston University. He is teaching Investments and Finance at Salem.

Fisher has his BA cum laude from Duke University, his MA in economics from Duke also, with being a PhD candidate at Duke.

Highfill has his BBA from Wake Forest and his MBA from the University of Alabama. He has teaching

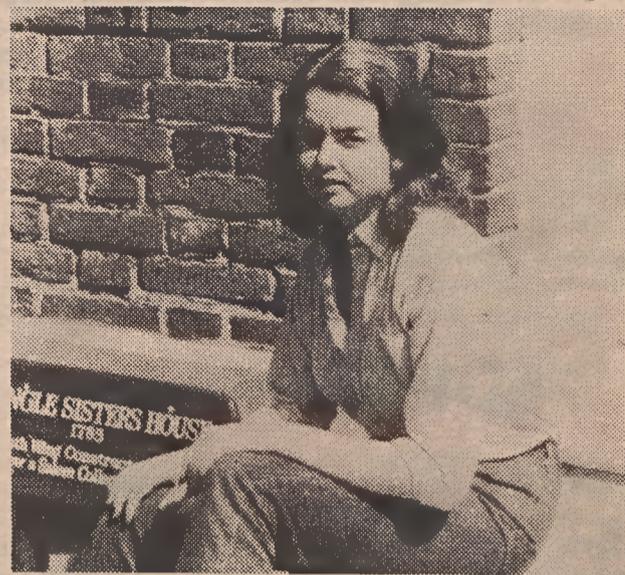

experience from Winston-Salem State University, Central Piedmont Community College and Forsyth Technical Institute.

Ms. Davenport has her AB in math education from the University of North Carolina at Chapel Hill. She graduated Phi Beta Kappa. She also has her MS in math education from North Carolina State University.

Dr. Linker has her AB from UNC-Chapel Hill, her MA from the University of Wisconsin and her PhD from UNC. She graduated from UNC Phi Beta Kappa and has studied at the University of Madrid in Spain.

New staff members introduced by Dr. Morrill include: Fran Redmond, a graduate of North Carolina Baptist Hospital, is a part-time staff nurse in the Salem Infirmary. Her experience comes from R.J. Reynolds, Westinghouse and the

Agneta Perman

## Swedish Student Pleased

by Allison Buice  
and Laurie Tomlinson

You have probably run into her on campus, either going to Fall Fest practice, attending SGA or running to class. She's already a Salemite and her command of the English language would never lead one to believe that Swedish is her native tongue.

Agneta Perman, 19, is a member of Salem's senior class this year and is from Stockholm, Sweden. She is the daughter of Dr. Einar Perman, who specializes in internal medicine, of Stockholm and Mrs. Gunvor Kellberg of Oslo. She has a brother, Jonas, who is 16 and lives in Stockholm. Agneta also has a sister, Yvonne, who is 14 and lives in Oslo.

When asked if her brother and sister had ever visited the United States, Agneta

teasingly replied, "No and they're really jealous."

Agneta's first trip to the United States was when she was two years old and came to Boston with her family on business. Other more recent trips include a trip she and her father made touring Los Angeles, New York City, Philadelphia and "believe it or not, Des Moines, Iowa!" in the spring of 1977.

During the summer of 1978, Agneta attended the Marlborough School in Los Angeles. The Marlborough School is a private girl's high school.

However, during the summer Agneta attended, Proposition 13 caused a few changes in the school's all girl attendance. Because many public summer schools closed down due to Proposition 13, males and females attended

## Fall Fest Activities Announced

by Amanda Mays

Fall Fest, the annual playday at Salem College, will be Monday. The schedule for the day is as follows: a rousing wake-up by seniors, getting dressed in class costumes, eating Ron's sugarcake and bacon, discovering class secrets and anticipating the remainder of the day.

Juniors, sophomores, and

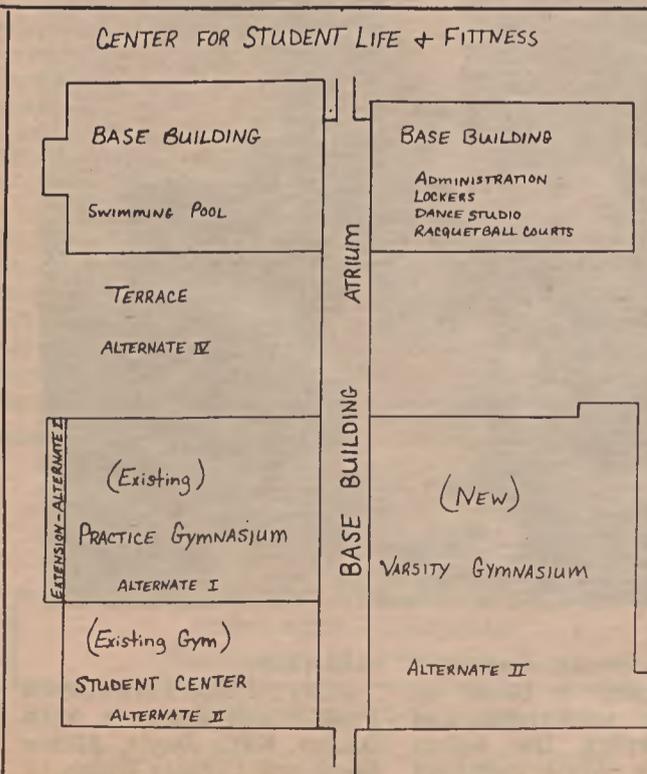

freshmen go to breakfast at 8:45, shortly before the seniors enter at nine. Dr. Morrill, Salem College President, and Serena Sapuppo, Chairman of Fall Fest, will address students before everyone parts for entrance.

A short break will precede lunch in Salem Square. During lunch Archways, Dansalems and Spirit, Salem Academy's singers offer entertainment.

After lunch games will be held on the soccer field. Events will include tug-of-war, water-balloon toss, toilet paper roll, and other competitions between the four classes.

The field competition will be followed by dinner at 5:30. After a short break everyone regroups before putting on their class skit in Hanes Auditorium at 7 p.m. Class skits are centered around the

## Phase I, Phase II . . .

## New Complex Under Construction

by Barbara Meskill

Imagine a junior olympic-size swimming pool and a large new gymnasium available for student use and just a few steps from the dormitories. Construction on Phase I of The Salem Academy and College Student Life and Fitness Center is on schedule, and all signs indicate that it will be completed on the target date of July 15, 1982.

The center, which will be used by students of both the Academy and the College, will not merely be another gym. Rather, it will be a very

appealing complex which will fit comfortably into the Moravian brick style of Old Salem while incorporating such modern architectural features as plaza walkways, an atrium, and vaulted ceilings. In Phase I, an indoor junior olympic size swimming pool (25 meters long) with a single one meter diving board will be constructed. Numerous sliding glass doors along the wall of the building will allow the pool area to be opened up in fair weather. The new gymnasium will contain two courts for class and intramural play and an additional large court for

intercollegiate competition. All the courts will be appropriately marked for badminton, basketball, and volleyball. Two locker rooms, each designated for use by Academy and College students and several offices will be included in Phase I. The science building will afford a picturesque view of the pool through the sliding glass doors.

In Phase II, the present Student Activity Center will be entirely renovated. The dance studio will remain on the third floor, but a snack bar, a lounge, and student
