Miss Batts's First Grade

The Toy Shop

We made some toys out of paper. We pinned one toy of each kind with its name under it on the bulletin board. The other toys were placed on a table and around the black board.

Our money was cards with the names of a toy printed on them. We got the money from the bank by saying the name of the toy on the card.

Then we went to the Toy Shop to buy the toys. After we asked the clerk for the toy we wanted, he gave us the toy and took our money.

When the clerks had collected all the money (or cards) they carried it back to the bank.

We enjoyed playing in our Toy Shop.

Seventh Grade Did You Know That

For once in her life, Seroba Anderson is not pet in her Seventh Grade Class.

Charles Batton is the biggest talker in the Seventh Grade. He can sit down and out talk all the rest of the class.

Philip Stone is so stingy he squeezes the skins off all the buffalo nickels that he gets.

Mrs. May left her false teeth on the dresser last night and they chattered so badly that she couldn't go to sleep.

"Aunt Mary" is getting much publicity in the Seventh Grade room on folk tales of our community.

Lost

Charles Batton's bottle of medicine.
Finder- Please do not return to Seventh Grade as we have had enough of the odor to cure us.

Sixth Grade

Hammerfash, Norway
June 1, 1939

Dear Classmates,
Well, here I am in Hammerfast to see the midnight sun. It is very pretty. You remember it is seen from May 13 to July 27.

When I arrived a trawler had just come in. It had the largest fishes that I have ever seen.
