SPRING FEVER

What does all those heads upon the desks mean? It just can't mean spring fever this early! Chances are that it can be not enough sleep. If that's it, let us systematize our work so that we can get a see bit more sleep. All of us know what spring fever can do for us, make us lazy- make us indifferent- and make us receive lower grades.

Have you ever noticed how lazy the class looks with about half the pupils with their heads on their desk? There really can't be any interest in the lesson. Remember we still have about two more months of school work. Maybe we should forget, too our spring fever after school stops, for Ma

and Pa might have something for us to do. There is just a small chance we may find something to do.

SPORTSMANSHIP

When we hear a person say, "he is a good sport," exactly what does he mean? Does it mean that he is a good basket-ball player or baseball player, or a good hunter or fisherman? Of course in one sense this person would be a good sportsman, but this is not all that sportsmanship includes.

First, sportsmanship can be judged by a person's attitude toward his fellowman, his organizations, and his reaction to a friendly joke someone pulls on him. Why should he get angry when no one means him any harm?

Second, a sport will give his hearty support to any organization pertaining to himself, his family or his friends. No sport would turn down an opportunity to help a friend.

If we wish to make friends out of our everyday associates, let's resolve to always practice good sportsmanship.

PAPER LOYALTY

Urgently are you asked to show your whole hearted support to our Beta Club paper, THE BAILEY BUGLE, in the closing months of this school term. A sport will be loyal to even a paper; that is what I am asking of you.

Is one cent asking too much of you for the purchase of a paper of your own? Please do not take advantage of a well developed paper by reading one belonging to someone else. Add your money and know that you are reading material that belongs to you personally.

We want an increase in the number of papers sold in our next two issues; not that we wish to profit in this project; but that we wish to give you news, found in your own surroundings.

Think this over and see if you can not further support a good cause by buying a copy of THE BAILEY BUGLE.
