NEW WORLD'S ALMANAC PURCHASED

The Bailey library has recently secured for its reference shelf a volume of The World Almanac. This book contains current historical, biographical, statistical, governmental, financial, and industrial information. It is an indispensable reference work for specific facts of all kinds and is particularly good for information on the state of New York. It must be used through an alphabetic index in the front, as the material in the text has no systematic arrangement. For historical information the section on Memorable Dates is particularly helpful for history students.

"READING MAKETH A FULL MAN."  
Bacon

BOOKS CIRCULATED WEEKLY

Miss Ferrell, the Bailey librarian, reports that the grammar grades are reading more books in proportion to enrollment than the high school. At present the elementary grades are reading on the average of seventy-five fiction and one hundred non fiction per week, while the high school averages about seventy fiction and twenty-five non fiction.

MAGAZINE PROTECTORS SECURED

In order to preserve the life of the magazines, protectors have been secured through Mr. Inscoc. These celluloid protectors serve the magazines in much the same way as do covers for books.
