First Crossroad Of Life

Dear Seniors, you have now reached the first big crossroad in your life. Where this road you take will lead you I cannot say; this can only be decided by you and the importance you place upon the decision.

Many of you will go on to college to gain more knowledge so as to equip you for the work you wish to do.

Others of you will stay home or go to work; experience will be your continued education.

No matter which highway you take, keep a cheery smile and be thus guided: "No matter what I do, be it great or small, I shall do it the best I know how." W.M.
