Seventh Grade Leads In War Fund Drive

Donations by the school for the War Fund Drive was \$86.56, according to latest report.

Mrs. T. C. May's seventh grade room, by collecting \$8.60, led all other rooms. Mrs. Louis Watson's eighth

grade was second with \$8.05.

The ninth grade boys under Mrs. Howard Farmer went 100%.

What About It?

Could it be the youthful mind that caused the ninth graders to exceed the eleventh graders in using the dictionary? We doubt it. The truth would come nearer being that the seniors are burdened with "so many other important things" that they do not have time for real study.
