

## Senior

### LESLIE RAY DEW

Also born and reared in Nash County is blond, blue-eyed, and 5'11" Leslie Ray Dew. Sometimes called "Kenneth Batts' other half", he is known for his cheerfulness and easy-to-get-along-with disposition.

Leslie's taste in cars runs to Cadillacs; in foods, to chocolate cake; in radio, to the Chesterfield Supper Club; and in colors, to blue.

Working around home after school claims most of his spare time. At present he has no after-graduation plans.

### PATRICIA ANN LAMM

Who around Bailey doesn't know Patsy Lamm? This tall comely miss has long, naturally curly brown hair, blue eyes and dimples. She is well-known for her even-temper and good nature. Her spare time is usually consumed with either Ruth Farmer or Evelyn Poole. According to Patsy, the most outstanding day in her high school career was the day she got her class ring. Smiling, Patsy says, "My dream man must be tall, dark, and handsome and drive a Buick!"

### RUDOLPH EATMON

You'll often see him in yellow; that's his favorite color. Everyone seems to think that yellow does justice to that wavy black hair and brown eyes, too. When asked what his favorite subject in high school had been, Rudolph replied,

"Typing." Mrs. Lassiter rightly holds a warm spot in her heart for this senior, for it is he who cleans and closes the typing room each evening. Usually found with William Glover, he likes to "hang out" at Green Gables. As yet, he says, that "ideal" girl hasn't come along.

### BETTY BLANCHE EATMON

Sparkle--she has plenty! Pep--oodles of it! Whom are we talking about? Betty Blanche Eatmon, of course.

Betty Blanche first greeted the world October 4, 1930. Now the most noticeable thing about this senior is her blue-gray eyes, which really shoot sparks if she is angry.

"Nothing--that's what I do after school," says she. (Except for listening to her favorite soap opera.)

Her favorite song is "I'll Always Be in Love with You," and maroon is her pet color. She likes to "hang out" at E. P. Privett's.

"Being a senior is simply wonderful," she says.

### BERNEASE EATMON

Green-eyed, brown haired Joyce Bernease Eatmon was born in Nash County on November 14, 1929.

## Portraits

This senior, usually found in comfortable sports clothes, is mostly seen working on the mimeoscope in the back of the journalism room. She has the reputation of being a hard worker, and was winner of the 1947 journalism award.

Outside of school Berncase likes to listen to the radio, preferring WCEC's "Coffee Time" because of its hot jazz.

She hopes to go in training at Carolina General Hospital after graduation.

### JACKIE LOIS EDWARDS

Petite, attractive Jackie Lois Edwards holds more medals than anyone in school: two scholarship medals, one journalism pin, and one journalism medal. Vice-president of the senior class and three years a BUGLE staff member, she has made honor roll all through school. She plans to attend business school after graduating so as to become a secretary. Jackie still has time for fun, though, as she confesses that "Boys" are her favorite subjects. Oh yes! Just for the book, she has long black hair, blue eyes, and dimples.

## Mother Honors Son

Seniors were entertained February 23, at activity period in their homeroom by Mrs. Kermit Lewis, honoring the birthday of her son Frank, senior treasurer.

After writing a birthday wish to Frank in his memory book, each senior served a drink and peanuts.
