

Coach's Slant—East, West—All..... W. H. WESTALL

Class tournament is over and the winners were the junior girls and the senior boys. It was a joy to see there are some good basketball players in Bailey High School. This tournament has helped me see that various players in action; now I feel I have an idea of the abilities of the boys and girls.

I won't try to mention everybody, but some girls and boys who I think should be recognized are:

JANICE EDWARDS-----She guarded her forward all over the court and moved around well. Her passing was good and she moved the ball with skill.

REGGY LILES----I picked Peggy because she was after the ball during the entire game. I also liked the way she followed instructions. I think she is a smart player but needs experience.

CATHERINE McKEEL---Catherine is very fast and is always fighting for the ball. She gives the impression that she is out there to win the game. That's the kind of player every team needs.

SUE BUNN--Sue is tall, moves around well for a girl her size, appears calm, and does her job well. A team needs a player like Sue as a steadying influence.

BILLIE FAYE PERRY---Billie Faye is fast, moves the ball very well, dribbles well, shoots pretty good, and drives for the basket really well. She should be

a great help this year. JUDY LAMM---Judy dribbles, shoots, pivots, and moves the ball very well. She doesn't seem as fast as Billie Faye, but is a little taller and uses her ability to pivot to a good advantage. She is needed.

JOAN BRANNON---Joan has a great number of shots which she handles very well. The underhand lay-ups are very unusual for a girl. I don't believe I've ever seen a girl use this shot so well. Joan should help any team.

LUCILLE McKEEL----Lucille is fast; she doesn't shoot as well as the three girls mentioned before, but she has one asset—she can surely jump.

The 10th, 11th and 12th grades had a number of good boys—I hate to leave any of them out.

JAMES PAUL STOTT---James is big, moves well and shoots well. Maybe one thing he should work on is his roughness. I'd rather have him in the game than sitting on the bench.

CARROLL JONES----Carroll has a nice one hand push shot and can hook with either hand. He is big and steady. He would help any team.

CORNELIUS BOYKIN---Corney is a good floor man, moves well, jumps well, and has a very good one-hand-push from about 15 or 20 ft. out. A team needs a boy who can hit from the outside.

NEWTON GLOVER-----Newton isn't as tall as the other boys, but he can drive for the basket and also has a push shot from about the

foul line. He's a good floor man, and I'm sure he will help.

HENRY BRANTLEY-----Henry shoots well, is fast, and tall. His one fault is his wild passes. He will be a real ball player when he settles down and gets a little more experience.

BILLY LILES---Billy. needs experience; he also throws the ball away too often. He is fast and is fighting all the time. A little more smoothness and he will be a fine ball player.

REX VICK-----Rex is very much like Billy. He needs experience.
