

County Sponsors Dentists Visit To School

"All I want for Christmas is my two front teeth" is what many of the children seen around school are saying, because doctors George Gouvos and Etheridge have been extracting many of their teeth. Teeth were also filled and cleaned.

Only the children in grades one through six, not over 13 years of age, were these doctors' patients.

The dentists did all of the work that needed to be done to the children's teeth unless they had a regular dentist. If they did have a dentist, the doctor told them what to do but left it to the parents to see that it is done.

Doctors Gouvos and Eth-

eridge work for the North Carolina State Board of Health, although the county helped to sponsor their coming here.

Their main office is located in Raleigh, and their main work is to teach "preventative" dentistry.

Dr. Gouvos stated that any tooth that had to be filled was done with amalgam-type filling.

COM. NAMES CHEERLEADERS

Seven cheerleaders were chosen by the high school class officers and a few of the teachers.

The seven selected were MACK BOWEN, SONJA LAMM, NANCY MEDLIN, JANE BURGESS, LOUISE HOWELL, TANYA and BETTY LOU GLOVER.
