 OUR LANGUAGE
 We will begin with a box and the plural boxes; But the plural of ox should be oxen, not oxes. Then one fowl is a goose, but two are called geese. Yet the plural of mouse should never be meese. You may find a lone mouse or a whole set of mice, Yet the plural of house is houses, not hices. If the plural of man is always called men, Why shouldn't the plural of pan be called pen?
 To speak of a brother and also of brethren, But though we say mother, we we never say methren. Then the masculine pronouns are he, his, and him, But imagine the feminine she, shis, and shim.
