

Teachers, We Thank You

Dear Teachers,

At this time of year, seniors seem to be the ones receiving all the praise, honor and glory, but we know who the power behind the throne has been.

The homeroom teachers who have been with us through thick and thin during the past four years especially deserve our appreciation and thanks. They have been our parents in a place which in reality has been a second home. These teachers Mrs. VanBuskirk, Miss Murchison, Miss Johnson, Mrs. Cuthrell, Miss Harris, Mr. Privott, and Mr. Cleetwood have given much time and efforts to make our high school years successful ones.

Mr. Privott and Miss Johnson, who were our class advisers, did everything in their power to help

put over our projects and when they were successful, which was always so, to whom was the credit given?—The class members, of course.

We do not mean to overlook our subject teachers, for they were the ones we were primarily responsible to. We consider ourselves lucky—Anybody can teach what's in a book—but not all schools have teachers who encourage individuals to think, do and act for themselves.

In later years, when members of our class are successful and famous, you teachers will certainly have a right to say, "I helped make that person what he is today."

Appreciatively yours,
The Seniors

Class Of '54 Has Good Record; Edson Extends Congratulations

In just a few more days the Class of '54 will for the last time pass through the corridors of Senior High. Many will continue their education in colleges and universities, the armed services will beckon a few, the strains of the Wedding March lure several to the altar; but the majority will begin to seek a livelihood in the world of competition. But what-ever path beyond school is select-ed, it is hoped that the four year sojourn in Senior High has ade-quately prepared the Class of '54 for the responsibilities that lie ahead.

The Class of '54 holds the dis-tinction of being the first class to graduate from the new million dollar Senior High and this year's class holds the record of being the largest class to ever graduate from our school. These two "firsts," as important as they may seem, do not represent achieve-ments but are actual statistical facts. The Class of '54 will not be largest group to graduate from a

our school but will be chiefly rec-ognized for the great contribu-tions made to the life, welfare, and history of our school. This school is a better place because the class of '54 has been here. They have set an excellent ex-ample for future classes to follow. Their accomplishments and achievements have left an indeli-ble mark upon all who had the honor to help and serve them.

One distinctive characteristic that may be noted about the members of the Class of '54 is that they always placed the wel-fare of the student body above personal or class desires and wishes. This most commendable trait has resulted in a pride of school and as development of school spirit that is unsurpassed in the state.

May, we all thank the Class of '54 for their enviable record and may we wish for them much suc-cess for the future.
