

Magazine Campaign Lags Short Of Desired Goal

Rocky Mount Senior High conducted its annual magazine sale September 30 through October 11. The goal set for the school was \$20,000. However only \$12,487.27 was raised.

The sophomore class won the campaign with \$4,657.36. The juniors followed with \$3,851.36. The senior class brought in \$3,237.73.

Amy Godwin, high salesman for the school and junior class, brought in \$227.89. Michael Janelle followed with \$214.14

and Elizabeth Kincheloe had \$187.47. Both Michael and Elizabeth are sophomores.

Other students selling over \$100.00 were Allen Salyer, Kaye Batt, Kim Lassiter, Jennifer Jones, Paul Mayberry, Jerry Taylor, Mary Sue Cummings, K. Eggers, Larry Kalmowitz, and Kim Flora.

Only 429 out of 1600 students at Rocky Mount Senior High participated in the campaign. This is approximately 26% of the student body.

National Merit Finalists Chosen

Two Rocky Mount Senior High students have received commendations from the National Merit Scholarship Corporation. They are Laura Hardy and Cindy Hartman.

When asked the question: "What three things contributed to your success on being commended?" Laura replied that excellence in instruction from her teachers, reading a great deal, and learning scholastic concepts had helped her. Cindy's answer was hard work, good teachers, and trying to do her best in what she did.

Laura and Cindy are among the other 35,000 students who

were commended for their outstanding grades on the 1975 Preliminary Scholastic Aptitude Test-National Merit Scholarship Qualifying Test. Edward C. Smith, president of the corporation, said: "The high standing of commended students in the program shows their great promise, and their attainment in this nationwide competition deserves public recognition. Commended students should be encouraged to continue their education; our nation as well as the students will benefit from their further educational and personal development."

Edgecombe Tech Offers New Course

Edgecombe Technical Institute has recently installed a complete energized lab with the latest equipment. Its purpose is training students in Radiologic Technology according to Mr. Larry Miller.

First year students will study this summer at Memorial Hospital in Chapel Hill and the Medical College of Virginia in Richmond. For six weeks they will work with the technicians from the Radiology department. Students from the University of North Carolina will be accepted by Nash General Hospital to work in their X-ray department.

Mr. Miller said, "Radiologic technicians are in demand throughout the United States. Graduates of A.M.A. approved programs who pass the National Registry Exam can expect to find employment in almost any area of the country."

Interested students can call 823-5166 in Tarboro or 446-0436 in Rocky Mount. The next class begins September 7, 1977, and applications are now being accepted.

In this program students get experience and instruction in taking X-rays, developing film, and positioning patients in the

lab before performing in the hospital. Phantoms, which are human bones enclosed in plastic, are used by students to learn about the human skeleton. They X-ray these phantoms and then develop the film in an automatic processor.

After this they study the the X-rays on a view box. Another piece of equipment that has been installed is the Faxitron, which is used for research in genetics and physics. It is the only one of its kind in the state that is used for teaching purposes.

YOU PUT US ON THE MAP.

When we opened our first Hardee's, we opened them right here in the Carolinas. And today, with more than 900 restaurants across the United States and two foreign countries, our home is still the Carolinas.

Which is why, no matter how big we get tomorrow, we'll always remember all of you who helped get us off the ground yesterday.

So next time you say hello to our delicious charbroiled burgers, golden french fries and all the other good things on our nationally famous menu, give yourself a well-deserved pat on the back. After all, it was you who put us on the map.

And we'll never forget it.
