

Evaluation Report Is Termed 'Good'

A copy of the A.S.H.S. evaluation report sent by the evaluators from the Southern Association of Colleges and Secondary Schools recently arrived and was termed "a good report" by Principal H. T. Webb.

The evaluators recommended several changes in the school, some of which the faculty were aware of the need for. An identical copy of the written report was sent to the N. C. Committee of the Southern Association, where it will be acted upon for the purpose of re-accrediting A.S.H.S.

Many of the evaluators made extremely favorable comments concerning the school. One stated in his report: "The over-all school program affected me favorably, and I was much impressed by the attitude and conduct of the students and the entire school process which I had the opportunity to observe."

Another evaluator stated: "There is ample evidence of pride and loyalty to the school."

Favorably impressed by the student-teacher relationship, a committee member remarked, "The rapport between teachers and pupils seems excellent."

"This is a strong school with a capable faculty, new facilities, and a wholesome environment for learning," was the appraisal of still another evaluator.

The committee members ended one evaluation report with this comment: "The committee feels that the over-all administrative set-up in this school and its day-to-day operation makes it a most effective institution for carrying out the purpose and programs of the school."

Students Request Highway Safety

Approximately 90 per cent of the A.S.H.S. students signed a petition requesting the North Carolina State Legislature to encourage an improved highway safety program by the enactment of more stringent traffic laws.

The petition has been sent to the State Legislature in the hope that it will help to sway the legislators' impending decision to raise the drivers license age limit to 18. A duplicate copy has been sent to the North Carolina Director of Traffic Control, and a third copy, to the county legislature.

Contained in the petition are requests for the following: (1) that the drivers license age limit not be raised to eighteen; (2) that a law be passed which will revoke a teenager's license on his second traffic violation until he reaches the age of eighteen; (3) that insurance companies, as a result of this traffic law or one similar, reduce their rates for teenage drivers accordingly.

The petition originated at Myers Park High School in Charlotte and is being circulated throughout the other high schools in the state.

Three Teachers Leave Positions

Three A.S.H.S. teachers, Mr. and Mrs. Bob Gantt and Mrs. Jewell Lee will be leaving their positions on the faculty when school ends for the summer.
