Lowder, Burriss To Enter AFS Competition

Beth Burriss and Jane E. Lowder are nominees for the 1967 summer American Field Service Program.

A committee of local citizens interviewed three girls in addition to Beth and Jane; Sandra Cranford, Jane Nicholds, and Mary Austin. All girls interviewed met the qualifications for the nomination. These qualifications include being at least 16 years old by June 30, 1967, being a junior at

the time of application, being a citizen of the United States, being in excellent health, having studied two years of foreign language in high school, and having a strong academic background.

Nominees, if accepted, must pay all expenses for the program. Acceptance comes from the American Field Service Office in New York City. Beth and Jane were asked to choose a country in which they would like to spend their summer, but if they are accepted, they can not be guaranteed this choice.

Asta Hrolfsdottir is now living in the United States under the AFS program. Sandy Kelley, a former ASHS student, spent a summer in Turkey under the AFS program.

Classes Debate Current Issues

Debates are now taking place in Mr. Merritt's American Problems classes. Recent issues which have already been debated are the draft system and unidentified flying objects.

Each debate consists of two 3-member panels and a moderator. The negative and affirmative panels are headed by chairmen who direct the presentation of their panel's opinions. Each member of the negative and affirmative groups is allowed five minutes to present his argument. After the views of panel members have been presented, each one is allowed a one minute rebuttal period. Following the rebuttal period, class members are given a chance to direct questions to either panel. A vote is then taken to determine the winner of the debate.

Classes other than the American Problems classes are invited to observe the debates, ask questions, and take part in the voting.

Student Begins Practice Here

Miss Elizabeth Carol Keller, a student at Pfeiffer College, began her student teaching here October 24. For a period of eight weeks, she will be teaching business subjects under the direction of Mrs. Gehring and Mrs. Chrisco. She will then complete her requirements for graduation.

In college, she was managing editor of the college annual and a member of the school newspaper staff.

Upon graduation from Pfeiffer, Miss Keller plans to teach business subjects in high school. She is very interested in young per-
