Spirits Possess Class

Mr. Fred Morgan, author of *Ghost Tales of the Uwharries*, spoke to Miss Misenheimer's fourth period English class about the supernatural November 7.

Mr. Morgan opened the discussion and answered questions. He thinks ghosts are spirits caught between the physical and spiritual worlds. According to Mr. Morgan, spirits can possess a body, but usually the person possessed is psychic.

He told the class about spirit communication dreams, and precognition.

As for reincarnation, he stated that he didn't believe the spirit could develop fully in one lifetime, so it may go from person to person, sometimes skipping a thousand years, sometimes five years between lives.

Before he left, Mr. Morgan was convinced that some students were psychic. He requested that if anyone had a psychic experience to contact him immediately.
