## Safe Roads Act Approved

By DAVID GRIGG

On October 1, 1983, the Safe Roads Act of 1983 went into effect. The purpose of this new law was to revise or completely change North Carolina's DUI law. The old "driving under the influence" law has been changed "driving while impaired". (DWI) To violate this new law a person must:

1. Be operating a motor vehicle on a public highway or public driving area (parking lot).

2. Be under the influence of an impairing substance (alcohol or

3. Have an alcohol level of .10 according to a breathalyzer test.

The punishment for drunk driving laws has also been changed. Now the trial of guilt will be held separately from the trial that decides the punishment. There are five levels of punishment, of which five is the most lenient and one is the harshest.

The level of punishment will be determined by the number of aggravating factors or mitigating factors presented. Aggravating factors would include prior conviction, driving when license is revoked by prior conviction, serious injury to another person, reckless driving, or negligent driving. Mitigating factors consist of only slight impairment of driving faculties, safe driving, safe driving record, or any other factor that mitigates the seriousness of the offense.

There is also another part of the new Driving Act. This section has reference to the legal age for purchasing beer and wine. As of October 1, the legal drinking age was raised to 19 years old. The penalty for attempting to buy beer underage has been changed

to a maximum of 2 years imprisonment and a minimum of 1 year license revocation. In addition to this, it is now illegal to buy beer for an underage person, take a person to a place where he/she will buy beer illegally, use false identification to buy beer. In addition, all penalties for alcohol related crimes have been stiff-

All of the above information came from a summary of The Safe Roads Act of 1983 by James C. Drennan, Institute of Government, The University of North Carolina at Chapel Hill. Further explanations were also provided by Mr. E. H. "Bud" Morton, a local attorney. This article in no means was intended to discourage people from drinking. The decisions concerning alcohol are personal and should be given deep thought. Just be sure to know the facts!
