

# CHARACTER SKETCHES

## MARTHA HOLT

The most important event in my life took place on September 21, 1933..... I was born.

The first few years of my life were spent in Franklin, but before I was six, I came up to Highlands and I have been here ever since.

What is my favorite high school subject? Well, believe it or not, it is French and I just love it. Next to French I like chemistry best.

I like sports, but the one that I like best is basketball. I might add that I also like to try to play tennis and soft ball.

More than any thing else I love music and I like to sing. One of my goals in life is to become a successful singer.

I like all kinds of books but I have no preference as to the authors.

I shall attend Erskine College this year and I plan to major in foreign languages. Besides wanting to become a singer. I want to be a teacher.

## DOT CRUNKLETON

I was born born May 5, 1932 at Highlands. I am five feet and six inches tall, and weigh about one hundred and fifteen pounds. I have brown hair and eyes. I have attended four schools. I have no hobby, but I like to joy ride.

When I finish school I plan.... Who knows?

## JOYCE BURNETTE

Mr. and Mrs. J.D. Burnette became the proud parents of a fourth daughter May 4, 1932. The only remark made over the event was, "It's another daughter."

After a few days they called this daughter Joyce Elaine and since that time I have been known as such. My hair is blonde and I have never been able to decide what color my eyes are. Sometimes they are blue and other times green or gray.

I started to school at Scaly when I was six years old and went to school there until I was in the fifth grade. Then I came to Highlands. Here I made new friends and soon became very fond of Highlands. When I was in the eighth grade I decided to go to Fort Lauderdale, Florida. I liked school there fine but when I came home for Christmas I decided to stay and go to school in Highlands. Since that time Highlands High School has been my second home.

I have no special likes or dislikes. My favorite subjects in school are history and algebra, and I have enjoyed working on the school paper, The Mountain Trail. I like to hike, especially up mountains and I like to read. I have no special talent but I like to bang on the piano. I am especially fond of writing letters. Open doors peeve me and I have a fondness for guns. My pet dislike is people who don't keep promises.

When I graduate from college I want to teach history.
