Jarrell started as pitcher and allowed no runs during his six and one-third innings. The winners got six hits, the losers five. This, being a non-conference game did not set the Warrior's record back..

SILER CITY

The Warriors showed their power once again by defeating Siler City 4-2. This completed the list of conference challengers and thus proved West's chances for the championship to be good. Horace Ledbetter pitched the winners to victory for the entire seven innings. Frank Saunders, Bruton, Morris, and Ledbetter scored one run to total the score of four. West got five hits, Siler City seven.

TRACK

The West Montgomery Track team met with three other teams at East Montgomery April 4, 1962. Siler City and Randleman who had both previous track teams took first and second place in that order. East took third and West took fourth.

The next meet was held at Randleman between Randleman and West. Randleman won first place and West second.

West next traveled to Siler City and competed with Siler City and Pittsborough. Siler City won first place and Pittsborough won second, West third.

And so concludes the track season for West Montgomery. Although the representatives didn't bring great honors to the school, they should be given credit for a job well done.
