

CLUBS PLAN --

THE ANNUAL

The annual was sent off the week of exams. Of course, before we can get it back in its complete form, the company must proofread the staff's work and make necessary corrections. The copy will then be placed as it will appear in the annual and sent to the staff for checking.

BETA CLUB

The Beta Club has appointed several committees for various activities which have been planned.

Ann Saunders was appointed chairman of a constitutional committee to revise the constitution and put in the compulsory attendance rule. This will be ratified at the next meeting.

Backy Birckhead was appointed chairman of a committee for investigating ways of raising money for the club. The following methods have been suggested: 1. car wash, 2. rummage sale, and 3. raffle.

Carol Newsom was appointed chairman of a committee to get the charter roster signed by the charter members. The members are those who graduated last year and those who are members now. This charter roster will be framed and put on display in the lobby along with the charter when it has been signed.

Larry Saunders was appointed head of a commit-

tee to get a talent act for the Beta Club Convention which is to be held in Asheville the week-end of April 5-6.

Each of the committee chairmen has two assistants to help them.

F. F. A.

The West Montgomery Chapter of F.F.A. is now killing out the hardwood on the school property to give the young pines, set out last spring, more growing power. The present F.F.A. students plan to have about four acres of pines, progressing toward maturity, for future West Montgomery F.F.A. students.

The greenhouse project is progressing fine. The young plants set out are all growing according to plan. If all the plants continue to grow and produce well, they should be ready to market early this spring. Much has been learned from this project.

LIBRARY CLUB

The Library Club has been busy in the making of catalogue cards for our two hundred new library books. These books must be accessioned and processed before their circulation. Another project of the club has been the processing of 49 new film strips for class-room use. Those students who conduct the use of the audio-visual equipment have been busy presenting filmstrips in the audio-visual room.

The library has acquired a collection of the best known composers accompanied by a filmstrip of their lives and works. Those students who are interested in music are invited to enjoy these fine recordings. The library staff has done a wonderful job in securing this equipment for our library.

Study hall groups are welcomed to view a special selection of films on sports and career guidance.

Miss Wilburn reports that she and Mrs. Winn will select a group of covered book-reports to be displayed in the library. The book reports were prepared by the junior and senior English classes. They will provide a colorful addition to the library.

History, science, and English groups have found the periodical room a good source of interesting study.

As an aid for students interested in a variety of fields, Miss Wilburn has ordered a special edition of Master Plots, the Bible Encyclopedia, An Index to Poetry, and Who's Who.

The full cooperation of each and every student is needed to maintain an atmosphere suitable for study in our library.

CHORUS NEWS

Members of the Chorus are working now on the music to be presented at its Spring Concert to be given in late April or early May. There will be several trios and other ensembles performing as well as the full Chorus. A program of popular and show music is being planned.
